Conditions of Sales

NON WARRANTY

I do not give any warranty express or implied as to Description, Quality, Productiveness or any other matter of any Plants, Bulbs, Seeds or any other goods offered in this catalogue, although the greatest care is taken to supply everything correctly named and of good quality. Purchasers unwilling to accept goods on these terms will confer a favor by promptly returning them.

PRICES

Prices in this Catalogue are as low as is consistent of quality. We stick to the prices in this Catalogue and never sell goods through roadside stands, dry goods houses or other channels as many firms are doing today. 6 plants can be bought at dozen rate and 25 and 50 at the 100 rate in all cases where plants are offered in these quantities.

INSPECTION CORDIALLY INVITED

We do not plant a large area but crop it intensively and always strive to have it in a neat and presentable condition. During late April and through May we have large collections of Tulips, Narcissi, Fritillarias, Eremuri and other bulbs in bloom. From late May until mid-October there will be Lilliums in flower, of these we are growing over 100 varieties. During more than half the year Rock Plants, and Hardy Herbaceous plants can be found in flower as well as interesting varieties of the less common evergreen and deciduous Shrubs. Our garden is open every day for inspection.

HARDY GARDEN ROSES

Garden roses may be successfully planted either in the fall or spring. To achieve success with them thorough preparation of the ground is essential. Well drained ground, free if possible from shade, deeply spaded and liberally manured is what roses love, they are more often starved than otherwise. I do not remember having seen any which have died from over-feeding; use cow manure if possible, but stable manure, well rotted, sheep manure, and bone are all good, so is soot. Plant as early as possible in spring for the best results. Be sure roots are moist when planted, spread them out well, and firm thoroughly. Cover the swollen part from which the shoots spring at least 1 inch. Do not prune newly planted stock until it has started to grow, then do not be afraid to head the plants back severely. During the growing season keep the surface soil stirred lightly and always do this after a rain. When you water do it thoroughly. Spraying the plants each night is more harmful than helpful. Before protecting for the winter, which should be done just in advance of freezing up weather, plants are better headed back to 18-24 inches in height and tie shoots up together, then draw earth up to the plants to the height of 6-8 inches, rather higher if possible, it is good policy to fill the depressions made with manure, this to be covered in spring with the earth you banked up with. After ground is hard frozen spread a generous covering of straw, salt marsh hay, cranberry tops or leaves over the beds holding this in place with evergreen boughs, be sure not to place this mulch on while ground is unfrozen or field mice and other rodents may cause great damage. Do not uncover too hastily, April 5-15 is early enough in the vicinity of Boston. First remove the evergreens, a little later the mulch, leaving the hilled soil to the last. Pruning should be done during April and all dead and very weak wood should be cut out entirely and 3-4 eyes left on other shoots, rather hard pruning gives the best results. A few of the climbers are everblooming in type and pruning on them is better deferred until spring, those giving but one crop of flowers are better to have all flowered wood removed directly after blooming, new shoots made after that time should merely have ends and dead wood removed.

The plants we offer are two year old field grown. We do not carry the cheap discarded greenhouse roses featured by some advertisers, these are good for one year if the price is no higher than that of bedding geraniums. We do not offer or recommend the "package roses" to be found each spring in all types of stores.

Fall planting of all types of hardy roses I would strongly recommend. In recent years I have had very much better success with fall than spring planting and I would strongly recommend anyone who has any doubts as regards its success to try a few plants this fall and compare results with spring plantings.

As a summer mulch I cordially recommend Peat Moss spread to a thickness of 1½ to 2 inches, this prevents the soil drying out, keeps the roots cooler and assists materially in checking weed growth, remove this in the fall and do not incorporate it in the soil. For black spot nothing is better than Massey Dust or Niagara Dust applied once a week at least through the season, and before each rain. All affected and fallen leaves should be picked up and burned, if this is not done the trouble will be more likely to be acute the following year.

A great many roses are today being patented. These include good, bad and indifferent varieties. High powered advertising through colored plates stimulates the sales of these but many are very disappointing and have been dropped from our list. Again I would say order and plant early for the best results.

HYBRID TEA ROSES

Each

Alezane. (Pahissa 1934, Patent No. 116.) The large reddish brown buds open to sorrel and unfurl rich apricot with reverse side sorrel striped yellow. Vigorous growth, a really striking novelty	\$1.25
Alice Harding. (Mallerin, 1937.) (Plant Patent 202.) A magnificent pure golden yellow carried on long stout stems, has a sweet honey fragrance. A long season bloomer and is of the highest merit	\$1.50
Autumn. (Coddington, 1931.) Burnt orange in bud stage, fully expanded flowers are burnt orange streaked red, some fragrance, medium size, free bloomer	
Bertha Gorst. (Beckwith, 1836.) A beautiful sport from Autumn and a fine grower. The brilliant carmine flowers are produced in great abundance	\$1.00
Better Times. (J. H. Hill Co., 1934, Plant Patent 23.) A grand new rose of outstanding excellence which promises to become just as popular outdoors as under glass. The large cerise red flowers are carried on splendid stems and foliage is excellent, delicately fragrant	\$1.00
Betty Uprichard. (Alex. Dickson & Sons, 1922.) One of the very finest bedding roses both here and abroad. A lovely combination of colors, inner face delicate salmon pink, outside glowing carmine with coppery sheen and orange suffusion	
Briarcliff. (Briarcliff Greenhouses, 1925.) A sport from Columbia without its faults. Large pointed flowers, silvery rose pink in color ...	
Caledonia. (Dobbie, 1925.) Magnificent large double snow white flower. Foliage good and plant very vigorous	
Carrie Jacobs Bond. (Howard & Smith, 1934.) (Patent 158.) A truly beautiful rose named in honor of the author of "The End of a Perfect Day." The large, double flowers are of fine form and carried on strong stems. In color a rich deep rose enhanced by a luminous coral sheen	\$1.00
Condessa De Sastago. The beautiful double flowers are two toned, coppery pink outside and golden on the outside of petals, a very high rating rose.	
Countess Vandal. (Leenders & Co.) (Patent No. 38.) Long pointed buds of bronze, coppery salmon, and gold with some fragrance	
	\$1.00 each, \$10.00 per doz.
Christopher Stone. (1935.) A very striking and increasingly popular English variety. The flowers are of a fiery brilliant red color and are of fine form	\$1.00
Crimson Glory. (W. Kordes Sons, 1935.) A very fine dark red and intensely fragrant rose, the large flowers are semi-double, excellent foliage and a continuous bloomer	\$1.25

Each

Dame Edith Helen. (Alex. Dickson & Sons, 1926.) This lovely rose has steadily grown in favor. The immense blooms are of a glorious, brilliant, soft pink color, the petals curl prettily and the fragrance is quite pronounced . . .	
Dickson's Centennial. (Alex. Dickson & Sons, 1937. Patent applied for.) A truly marvelous new rose with superb blooms of deep glowing crimson and velvety red shadings, inner petals sparkling strawberry red, when fully developed a velvety sheen radiates from every petal; vigorous and very fragrant	\$1.50
Dickson's Red. (Alex. Dickson & Sons, 1939.) (New this year.) Here we have the most outstanding of all rose novelties. A glowing scarlet rose with wonderful fragrance and one which does not burn under sunshine as do so many reds, flowers are produced singly on long strong stems. Received first award "All America Rose Selections" for 1940. The gold medal of the National Rose Society in England as well as the Clay Cup for fragrance	\$1.50
Eclipse. (J. H. Nicolas, 1936, Patent 172.) A winner of many International prizes abroad, color very rich golden yellow, 20-25 petals to the flower, petals are large and tough, and without shading	\$1.25
E. G. Hill. Here we have massive blooms of rich maroon scarlet and high fragrance	
Edith Nellie Perkins. (A. Dickson & Sons, 1928.) Long pointed buds which are creamy and blush without, the color within being salmon pink with a golden orange base. A superb rose, vigorous and very fragrant	
Eternal Youth. (Alcardi, 1937.) A new and beautiful pure pink lightly suffused with salmon. A vigorous grower and with splendid foliage. Probably the best pink yet produced	\$1.50
Etoile de Hollande. (Verschuren & Sons, 1919.) Rich crimson red, one of our very finest bedding roses where brilliancy and constant blooming qualities are desired. Very fragrant	
Feu Joseph Looymans. (Looymans, 1921.) Long pointed buds of glowing apricot and old gold, which are fragrant and of fine form, steadily growing in favor	
Feu Pernet Ducher. (Plant Patent 103.) Beautiful golden yellow flowers, occasionally flushed pink	\$1.00
Golden Dawn. (P. Grant, 1929.) A lovely yellow Australian rose, the flowers in color resemble those of that grand old variety Marechal Neil, fine foliage and vigorous	
Gloaming. (J. H. Nicolas, 1936.) Plant Patent 137. The flowers of this variety are of unusual coloring, fawn orange in the bud while the large full flowers are of a peculiar pink overlaid with salmon	\$1.00
Gruss an Teplitz. (Geschwindt, 1897.) Carries bunches of medium sized crimson red flowers which are fragrant. Too robust to go with other hybrid teas, its place is in a bed by itself or in the shrubbery border, must be more lightly pruned also	
Hector Deane. (S. McGredy & Sons, 1939.) (New this year.) This fine new comer is crimson in the bud stage opening orange with a yellow base, extremely fragrant and a husky grower	\$1.50

Each

Kaiserin Auguste Viktoria. (Lambert, 1891.)	
This old variety still retains considerable popularity, the flowers are pearly white, tinted lemon, fragrant and well formed, the plant is not a very good grower, however	
Killarney Queen. A greatly improved sport from Killarney, fuller and better colored flowers ..	
Killarney, Double White. Much fuller flowers than White Killarney, color snow white, has a moderate fragrance	
Lady Alice Stanley. A grand old flesh pink variety, very dependable	
Lady Margaret Stewart. (Alex. Dickson & Sons, 1926.) A truly glorious gold medal rose. The color is sunflower yellow veined orange scarlet, with the reverse of petals deeply suffused carmine, of a lovely orange shade when fully open, may well be classed as a glorified Rev. F. Page Roberts, but more vigorous than that lovely rose	
Los Angeles. (Howard & Smith, 1916.) Rich flame color shaded orange, fragrant, lovely in bud and its glorious color gives it great popularity, must be well protected from black spot	
Max Krause. Long yellow bud and cup shaped flower carried on stout stem. Leathery foliage makes it very disease resistant	
Miss Rowena Thom. An excellent Howard & Smith variety, flowers are rich satiny pink with orange flame centre	
Mme. Butterfly. (E. G. Hill Co., 1918.) A glorified sport from Ophelia, richly tinted gold near base of petals, has some fragrance and is a great bloomer	
Mme. Edouard Herriott. (Pernet-Ducher, 1913.) Often referred to as the "Daily Mail Rose," is one of the most popular roses ever introduced. Coral red and orange in the bud, opening orange red, protect well from black spot	
Mme. Joseph Perraud. (Gaujard, 1934.) A lovely nasturtium buff, luminous shell pink at edges, almost a pure buff	\$1.00
Mme. Jules Bouche. Medium sized white flowers lightly tinted pink in the centre	
Margaret McGredy. (S. McGredy & Son, 1927.) One of McGredy's finest introductions. A good grower and profuse bloomer, the color is orange scarlet, shaded yellow at the base and is very lovely	
McGredy's Ivory. Long buds open to perfectly shaped pure ivory white flowers which are sweetly scented	
McGredy's Pink. (S. McGredy & Sons, 1936.) The large flowers of this variety are carried on sturdy stems and are of a beautiful bright rose with a saffron-yellow base, sweetly scented	\$1.50
McGredy's Pride. (McGredy, 1936.) A magnificent rose, orange and salmon pink in color, flushed and veined salmon-yellow. Outside of petals is yellow cadmium, flushed flesh pink, very vigorous	\$1.50
McGredy's Scarlet. (S. McGredy & Sons.) The large, full flowers of this splendid rose are brilliant scarlet with a touch of orange yellow at base of petals. Vigorous and free flowering	
McGredy's Sunset. (McGredy, 1937.) Aptly named. A really superb variety. Outside of petals buttercup yellow, tipped orange, in-	

Each

side chrome yellow flushed scarlet as it opens, color intensifies as blooms expand. Has a pleasing fragrance, a splendid rose in hot weather also	\$1.50
McGredy's Triumph. (S. McGredy & Sons, 1936.) Every rose with the name McGredy attached is good and in this new variety which has vigor, size, form and color we have ovoid cerise buds overshadowed with orange, opening into a brilliant deep pink with a yellow centre	\$1.25
McGredy's Yellow. By many growers both here and abroad this is classed as easily the finest yellow hybrid tea rose in commerce. Bright buttercup yellow flowers which stand up under rain, beautiful rich glossy foliage, fragrant ..	
Mme. Jean Gaujard. (Gaujard, 1934.) In color and form suggests Rev. F. Page Roberts. Long graceful buds. A lovely soft buff when fully expanded, a beautiful garden rose	\$1.50
Mevrouw G. A. Van Rossem. A truly lovely rose with a unique color combination, being vivid orange and apricot on a golden yellow ground, often touched with bronze. Fragrant and of fine form	
Mrs. Aaron Ward. (Pernet-Ducher, 1901.) Buff in bud, tawny yellow when open, of dwarf habit, free flowering and is good for the edges of beds	
Mrs. Erskine Pembroke Thom. Far superior to Souv. de Claudius Pernet as a yellow for the garden. Long buds of a rich lemon yellow color	
Mrs. Henry Bowles. (Chaplin Bros., 1921.) Luminous deep salmon pink, high centered flower	
Mrs. Henry Morse. (S. McGredy & Son, 1919.) Bright rose, impregnated vermillion, dwarf habit and very free flowering, one of the finest hybrid teas in commerce	
Mrs. Sam McGredy. (McGredy, 1930.) Large orange salmon flower with golden suffusion, vigorous and healthy	
Mrs. P. S. Dupont. The long pointed buds are reddish gold, expanding into beautiful rich golden yellow flowers, a profuse bloomer and fragrant	
Pink Dawn. (Howard & Smith, 1935.) A sweetly scented fully double deep rose which opens to a lovely pink with an orange base. Sturdy upright habit	\$1.00
Poinsettia. (Howard & Smith, 1938.) The flowers in this variety are semi-double and of an intense scarlet color freely produced during the season	\$1.00
President Herbert Hoover. (Coddington, 1930.) A very beautiful and fragrant rose which steadily grows in favor. The delightful combination of cerise pink, flame, scarlet and yellow which makes up the flower thrills everyone, much superior outdoors to Talisman	
Radiance. (John Cook, 1908.) Probably the hardiest, most vigorous and most generally dependable hybrid tea in America, free from about all ailments, almost too robust to plant with the bulk of its class. Color silvery rose, and fragrant	
R. M. S. Queen Mary. (H. A. Verschuren, 1937.) Plant Patent 249. This was easily the most sensational new rose in 1938. Has received nu-	

Each

merous high awards in Holland and the United States. The color is a glorious combination of rich salmon orange with a pure pink and orange base, free flowering, vigorous and very fragrant	\$1.50
Rapture. A sport from Mme. Butterfly but rather deeper in color	
Red Radiance. A rosy red sport from Radiance, very vigorous	
Rome Glory. (Aicardi, Italy.) This was selected as the official rose to glorify the third millennium of the founding of Rome, the Eternal City, very large and double richly perfumed crimson blooms. Long stems and a vigorous variety	\$1.50
Rev. F. Page Roberts. (B. R. Cant & Sons, 1921.) A tremendously popular variety, the long pointed buds are coppery red in color, opening a lovely yellow, not a very good grower	
Sir Henry Segrave. (Alex. Dickson & Sons, 1932.) Long pointed buds develop into very large high centered flowers of a lemon yellow color deepening towards the center, has a rich fragrance	
Signora. (Aicardi, 1936, Patent 201.) A strikingly beautiful new variety, long buds of warm burnt sienna open to a lighter hue suggesting mandarin. Handsome foliage, flowers carried on long stems, splendid for cutting	\$1.25
Talisman. (Montgomery, 1929.) No rose ever introduced made such a sensation as Talisman. It blooms very freely in the garden, the flowers are unique in their colorings, running from rich apricot, gold, deep and rose pink to old rose. Immensely popular	
Texas Centennial. (Dixie Rose Co., 1935.) Plant Patent 162. A grand sport from President Hoover with all that varieties sterling qualities. The color is blood red toning to cerise red in the centre	
Ville de Paris. (Pernet-Ducher, 1926.) Very rich buttercup yellow, buds are long and flowers extra large. Preferable to Souv. de Claudius Pernet.	
Wilhelm Kordes. (W. Kordes Sons, 1922.) The color here is truly unique, being rich red with a coppery suffusion overlying a golden salmon ground. Long buds, high centered flowers and very fragrant	
Willowmere. Brilliant pink flowers suffused with a golden light	

All Hybrid Tea roses offered unless otherwise priced are 75 cents each, \$8.00 per dozen, \$60.00 per 100. We handle only the highest quality of field grown two year old grafted plants. We do not offer any of the cheap discarded greenhouse forced roses, nor do we handle any on their own roots as they are valueless in New England, although succeeding quite well in certain of our warmer states.

After June 1 we will have a good selection of hybrid tea roses (and some climbers) in pots for late plantings.

SINGLE HYBRID TEA ROSES

There is a special charm about the single flowered Hybrid Tea Roses which appeals to an increasing number of buyers. The following will be found excellent in every way.

Cecil. Large flowers of a beautiful buttercup yellow, the only really pure yellow single.

Dainty Bess. Here we have a delicate shade of shell pink with conspicuous crimson markings greatly admired and justly popular.

Innocence. Very large snow white flowers with wine red stamens tipped with golden anthers.

Irish Fireflame. Another lovely single rose from Dicksons in Ireland, madder orange in color changing to old gold.

Isobel. Rose pink with apricot shadings and a golden yellow centre.

Prices of the foregoing Single Roses, 75 cents each, \$8.00 per doz. As stocks are rather limited, early applications for these are suggested.

HYBRID PERPETUAL ROSES

These roses which were immensely popular before the advent of the Hybrid Teas are more winter hardy than the latter and well adapted for the colder portions of New England. In nearly every case they have a very pronounced fragrance. While the majority bloom principally in June, a few are fairly constant bloomers.

Captain Hayward. (Bennett, 1893.) Crimson scarlet, fine form, fragrant and robust.

Frau Karl Druschki. (Peter Lambert, 1900.) Very large, pure white, extremely vigorous, although without fragrance. The most popular of all white roses.

George Arends. (Hinner, 1910.) Sometimes called the "Pink Druschki." The color is a pure soft pink, large and beautifully formed flowers which are freely produced.

Gloire de Chedane Guinoisseau. Very large vermillion scarlet flowers of globular form.

Mme. Albert Barbier. (Barbier & Co.) A grand variety of recent introduction, white with a delicate flush of pink, of dwarfer habit than its seed parent, Frau Karl Druschki.

Magna Charta. (William Paul & Son, 1876.) Bright pink suffused carmine, sweet scented, hardy and robust. Much used for forcing.

Mrs. John Laing. (Bennett, 1887.) Immensely popular, blooms just as freely as the Hybrid Teas. Large, clear pink flowers, freely produced and shoots are thornless.

Paul Neyron. (Levet, 1869.) Enormous flowers, dark lilac rose in color, very fragrant.

Prince Camille de Rohan. (Eugene Verdier, 1861.) This darkest of all the H. P. roses is still indispensable. The color is dark crimson, shaded maroon with a gracious fragrance. Given some shade the beautiful flowers will not burn.

S. M. Gustave V. (Nabonnaud, 1928.) An ever blooming hybrid perpetual, lovely pink color, vigorous, fully double flowers and very fragrant.

Ulrich Brunner. Very vigorous large cup-shaped purple-crimson flowers, an old favorite.

Prices of all Hybrid Perpetual roses 60 cents each, \$6.00 dozen, \$50.00 per 100. Six at dozen and 25 and 50 at 100 rate.

POLYANTHA OR "BABY RAMBLER" ROSES

This class of roses is steadily growing in favor owing to their constant flowering qualities and hardiness, varieties like Else Poulsen and Karen Poulsen are splendid for hedges but all are admirable for bedding. The name "Floribunda" has been recently applied to certain of the stronger growers but as the entire family are really equally free flowering, the new title should be applied to all or none. The name "Baby Rambler" often used is rather inappropriate for roses which do not "ramble" at all.

Anne Poulsen. (Polyantha.) (Poulsen, 1935.) Large semi-double scarlet-crimson flowers which are fragrant, produced all summer, plants are husky with splendid foliage. The finest of the Poulsen roses. 75 cents.

Betty Prior. (Prior, 1935.) An improved form of the very popular Else Poulsen. Outside of petals dark carmine, inside several shades lighter, vigorous grower. \$1.00.

Cameo. (De Ruiter, 1932.) Shell pink and salmon with a golden glow, a lovely variety.

Chatillon Rose. Vivid light salmon pink, large heads of semi-double flowers.

Donald Prior. (Prior, 1934.) Semi-double cup-shaped flowers, bright scarlet in color flushed crimson. \$1.00.

Else Poulsen. One of Poulsens grandest introductions, semi-double bright pink flowers in large trusses a constant bloomer.

Golden Salmon. Of a lovely golden salmon color.

Gruss an Aachen. Different from all other Polyanthas on account of the remarkable size of the flowers which are often mistaken for Hybrid Teas. Buds are orange red and yellow, when fully open the very double flowers are a charming combination of light pink and salmon yellow. A wonderful fall bloomer.

Gruss an Aachen, Pink. Like the type in form but the color is a pleasing pink.

Gruss an Aachen, White. A fine novelty, buff yellow while in bud becomming snow white when open. 75 cents.

Karen Poulsen. (Poulsen, 1933.) The most brilliant of all the Poulsen roses, flowers are single, large and a brilliant scarlet in color, an ever bloomer.

Kirsten Poulsen. A grand companion to Else Poulsen, brilliant scarlet flowers in large trusses.

Mme. Cecile Brunner. (Ducher, 1881.) Popularly known as the "Sweetheart Rose," delightful for boutonnieres.

Marie Pavie. Pure white of very nice form and free flowering.

Mrs. R. M. Finch. Soft rosy pink. A glorified Mme. C. Brunner.

Permanent Wave. (M. Leenders, 1932, Patent 107.) Of the large flowered hybrid polyantha type, rosy pink flowers in large clusters permanently waved from bud stage to finished flower, color rosy pink. A fine acquisition. 75 cents.

World's Fair. (Kordes, 1930.) This splendid variety we tried last year and found it excellent in every way. It received the highest award amongst the Polyanthas in Americas in 1939. The bushy plants are smothered with clusters of large velvety blackish scarlet blooms which are quite fragrant and the petals circle a mass of golden stamens. \$1.00 each, \$10.00 doz.

Prices of Polyantha roses apart from novelties, 50 cents each, \$5.00 doz., \$40.00 per 100.

CLIMBING, RAMBLER OR PILLAR ROSES

Steady progress is being made in this important family of Hardy Roses and we have today a much wider range of colors and better still are getting varieties like New Dawn and Allen's Fragrant Pillar which really throw several crops of flowers. Special advancement has taken place amongst the yellows and we now have much hardier varieties with large golden flowers, far superior to those originated a couple of decades ago.

Albertine. (Barbier & Co., 1921.) Of a most unique color, the vermillion buds expand to large perfectly shaped moderately double flowers of a lively cameo pink color with a silvery suffusion, sweetly scented.

Allen's Fragrant Pillar. (Allen, 1930.) An ever blooming climber with large, full, fragrant satiny pink flowers. \$1.00.

American Pillar. (Dr. Van Fleet, 1902.) Carries immense trusses of crimson pink flowers, which last extremely well, possesses great vigor.

Apricot Glow. (Brownell, Patent 200.) A beautiful climber with medium sized flowers similar to Jacotte in color but fully double, light apricot in color shading to yellow at the base. A profuse bloomer carrying its flowers in large clusters, the pleasing fruity fragrance is another great asset. Of vigorous habit. \$1.00.

Aviateur Bleriot. Small clusters of light yellow flowers with some fragrance. Fine as either a climber or trailer, rich shining foliage.

Doubloons. (M. H. Horvath, 1934.) (Plant Patent No. 152.) A wonderful climber carrying large clusters of golden yellow flowers. Buds are saffron yellow, fragrant and fade very little. A fine acquisition. \$1.50 each.

Dr. Van Fleet. (Dr. Van Fleet, 1910.) Extremely vigorous, large clear pink flowers carried on strong stems, splendid foliage, a grand climber.

Easlea's Golden Rambler. (Walter Easlea, 1932.) A grand climbing rose with large clusters of fragrant golden yellow flowers enhanced by a luminous shade of light orange. \$1.00 each.

Golden Glow. (Brownell.) A pure bright yellow without any other shadings, similar in habit to Apricot Glow, carries 4-5 flowers per cluster, a very appealing variety. \$1.00.

Emily Gray. (Dr. A. D. Williams, 1916.) This lovely light orange yellow climber is steadily forging its way into popular favor, reports of its tenderness frightened some would-be planters, but it has succeeded so well in many sections that this fear is vanishing, flowers are very large, carried on long stems and the foliage is very attractive.

Gardenia. (W. A. Manda, 1899.) Buds are yellow, opening pure sulphur, foliage very glossy and attractive, fine as either a climber or trailer.

Glenn Dale. (Dr. Van Fleet, 1927.) Beautiful lemon yellow buds. Introduced by the American Rose Society. A charming variety. 75 cents.

Hiawatha. (M. H. Walsh, 1904.) Large trusses of bright red flowers very abundantly produced, a splendid climber.

Jacotte. A very lovely salmon orange variety with a gold shading. Possesses a little fragrance, the

foliage is very lustrous. This rose is thriving wonderfully in many parts of Massachusetts, 75 cents each.

Le Reve. A fine yellow pillar rose which stays yellow, is also fragrant and carries splendid foliage.

Marie Gouchault. (E. Turbat & Co., 1927.) Resembles Dorothy Perkins in habit but the flowers are much more brilliant, of a geranium pink color with no trace of magenta.

Mme. Gregoire Staechelin. Better known as the "Spanish Beauty" rose, an immense pink flower, extremely vigorous.

Mary Wallace. (Dr. Van Fleet, 1921.) Large bright pink flowers illumined with gold and quite fragrant, very vigorous.

Mermaid. Still rather scarce, this lovely and immensely popular English variety is steadily increasing in popularity. The large single yellow flowers are 4-5 inches in diameter and plants flower over a long season. \$1.00.

New Dawn. (Somerset Rose Nursery.) (Plant Patent No. 1.) A truly ever blooming pink climber, best described as a perpetual flowering Dr. Van Fleet. This, the first patented rose has emphatically made good. \$1.50.

Paul's Scarlet Climber. (William Paul & Son, 1916.) The finest of all our climbing red roses, flowers are large, carried on trusses of moderate size and hold their color until fading, a grand pillar rose.

Primrose. A vigorous, hardy and quite dependable climber with soft yellow flowers which are quite large and fully double.

Purity. Large semi-double snow-white flowers, very free.

Reveil Dijonnais. (Buatois, 1931.) A lovely climber. Medium sized golden buds striped with reddish pink opening to semi-double golden yellow flowers, center circled with carmine, gives some flowers during the summer. \$1.00 each.

Silver Moon. (Dr. Van Fleet, 1910.) Holds first place easily amongst climbing roses. The large flowers are pure white in color and the golden anthers show up very prominently above the translucent petals. Splendid foliage and extremely vigorous.

Wichuraiana. A fine Japanese rose, useful as climber and also for covering banks, the foliage is very attractive, making a perfect mat of evergreen. The single white flowers are carried in trusses.

Price of Climbing Roses except otherwise priced 50 cents each, \$5.00 doz., \$40.00 per 100.

NEW BROWNELL SUB ZERO ROSES

The following varieties have been raised at Little Compton, R. I. by Mr. W. D. Brownell, who is doing splendid work in raising new varieties from hardier Species which will better withstand our New England winters and prove constant bloomers.

HYBRID TEAS

Break O'Day. Orange to apricot, large flowers, very vigorous and free.

Lily Pons. Pure yellow shading to white, large flowers of great delicacy.

Pink Princess. Red in bud, open flowers deep pink, famous as the first absolutely black spot free H. T. rose.

HARDY CLIMBING ROSES

In addition to being excellent climbers, these roses are also admirable as creepers for ground covers.

Copper Glow. Deep coppery orange with a truly delightfully spicy fragrance, a sensational color in climbers.

Coral Creeper. Carries all shades of ocean coral complementing other delightful tints.

Frederick S. Peck. Deep grenadine pink with yellow centre, semi-double.

Golden Pyramid. Cadmium yellow, a most vigorous climber.

Peggy Ann Landon. Strong double sunflower, orange buds, opening yellow, very early.

We offer two other Brownell climbers which will be found under the general list of Climbers and Ramblers, viz: Apricot Glow and Golden Glow both of which are proving to be excellent varieties.

Prices of the foregoing 8 varieties of Little Compton roses, \$1.50 each, \$13.50 per doz.

RUGOSA AND HYBRID RUGOSA ROSES

Agnes. (Saunders, 1922.) Of Canadian origin and will withstand rigorous winter conditions, buds are coppery turning amber yellow, a strong grower. Flowers are fragrant.

Conrad Ferdinand Meyer. (Muller, 1900.) A very handsome rugosa, the large flowers are light pink in color and very freely produced, very robust grower.

Dr. Eckener. (Berger, 1930.) Salmon pink with golden base.

Blanc Double de Coubert. An excellent pure white.

F. J. Grootendorst. (Degoey, 1918.) Flowers are bright red and suggestive of the old Crimson Rambler in color, borne very abundantly through the season, makes a fine hedge plant.

Max Graf. A trailing variety for covering ground or walls, the light single pink flowers are very freely produced, carries splendid foliage.

Pink Grootendorst. (F. J. Grootendorst & Sons, 1923.) Has all the good qualities of the original Grootendorst but is light pink in color.

Vanguard. A new color in Rugosas, orange salmon and gold. Fine as a shrubbery plant or as a specimen.

Prices of Rugosa roses, 50 cents each, \$5.00 doz., \$40.00 per 100.

ROSE SPECIES

These are very interesting for groups, or individual specimens; fruits in about all cases are attractive following the flowers.

Rosa Ecae. Makes a rather low growing shapely bush with yellow flowers, early bloomer.

Rosa Hugonis. The earliest of all roses to flower, usually about May 22 near Boston, a strong grower and every branch is smothered with soft yellow flowers, has been very heavily planted but has a bad knack of dying out wholly or in part during midsummer.

Rosa Lucida. Bright pink flowers 2 inches across, followed by shiny red fruits.

Rosa Rouletti. The smallest of all roses, fine for pot culture or the Rock Garden, small double pink flowers all summer. .50-.75 to \$1.00 each.

Rosa Rubrifolia. Striking reddish leaves and pink flowers.

Rosa Rubiginosa (Sweetbriar). Very fragrant foliage, small flowers and oval fruit.

Rosa Setigera. The "Prairie Rose" carries large bright pink clusters of flowers rather late in the season.

Rosa Zanthina. A fine Chinese species, more dependable than Hugonis, blooming a little later.

Spinosissime Altaica. (Scotch rose.) Grand old variety, lovely in both flower and fruit.

Prices of Rose Species 75c each, \$8.00 per doz.

Collection of 8 varieties for \$5.00.

Note: We also have the miniature roses Tom Thumb and Oakington Ruby, 75 cents each.

MISCELLANEOUS ROSES

Austrian Copper. In cultivation since 1596. The single flowers are rich coppery red in color, reverse of petals golden yellow. Quite scarce.

Blanche Moreau. A lovely pure white Moss rose.

Crested Moss. Rose colored and beautifully crested.

Harison's Yellow. Introduced by Harison over 100 years ago. Carries large semi-double golden yellow flowers in great profusion a fortnight after Hugonis.

Skyrocket. (Kordes, 1934.) A striking new evergreen shrubbery rose, carries very large clusters of bloom all summer of a rich red color, makes a fine plant for the shrubbery, a forerunner of a new race.

Prices of Miscellaneous Roses, 75 cents each, \$8.00 per doz.

OLD FASHIONED ROSES

We have limited stocks of a few of the very old Roses like Cabbage, York & Lancaster, Damask and one or two others. Price \$1.00 each. We will gladly send names of such varieties as we have, on application.

STANDARD OR TREE ROSES

Of these we have for some years carried moderate stocks. As the tops are well elevated and get a good circulation of air they are less susceptible to black spot than the dwarf hybrid teas. It is good policy to wrap some sphagnum moss about the budded portions in spring and keep this moist until plants are well started. Neither the numbers nor the varieties of these standard roses are numerous and early application should be made for any needed.

Varieties of Standard Roses are as follows:

Alezane	McGredy's Ivory
Alice Harding	McGredy's Yellow
Autumn	Mrs. E. P. Thom
Countess Vandal	President Hoover
Etoile de Hollande	Rome Glory
Golden Dawn	Talisman

Prices of Standard Roses, \$3.25 each, \$35.00 per doz.

HARDY LILIUMS

These are one of my leading specialties, and a large proportion of those offered are home grown bulbs. The coming of *Lilium regale* paved the way for a tremendously increased interest in Lilies. Whereas formerly but a limited number of varieties were listed or grown, the demand today is for a very much wider assortment, embracing practically all Lilies which will grow in North America. The bulb rooting varieties like *Candidum* and *Testaceum* should be planted quite shallow, 2-3 inches suffices, while such stem rooters as *regale*, *speciosum*, *auratum*, *Henryi*, *Formosanum*, *Browni*, and others should be covered 8-12 inches. All Lilies should be planted where their feet will be dry in winter, fresh manure must never be used in the soil at planting time, if very old and well decayed it is all right, all lilies love leaf mold and they seem to root with avidity in peat moss, sand is good for all of them and at planting time a cushion should be placed for each bulb to rest on scattering more above them.

Candidum can be planted from early August onwards, the majority of other lilies are ready in October but the imported bulbs of *speciosums* and *auratum* with one or two other varieties rarely arrive in America before December 1, sometimes much later, if places where these are to go are mulched to exclude frost they can be planted in either December or January, failing this bulbs should be either kept in dry soil over winter in a cold cellar or potted and planted out in early spring. Bulbs should never be left exposed to sun and air for more than a brief time, scales will soon lose their plumpness, and shrivelled bulbs will never give the same results as plump ones. The idea that Lilies must be planted in either fall or early spring is utterly wrong. During recent winters we have planted out large numbers during December, January, February and March, always with excellent results. Not only may Lilies be planted while they are dormant or nearly so, but they can safely be moved while in active growth. We find that Lilies do not require much winter mulching. A few varieties like *sulphureum*, *japonicum*, *rubellum* and certain Pacific Coast varieties will however be benefited by a covering.

Virtually all North American lilies are vastly better fall planted, little if any flowers need be expected from spring plantings, the same holds true of nearly all European varieties. They will make fine bulbs however to flower a year later. The later lilies are planted in the spring the poorer they will flower. A large proportion of lilies sold in spring have been carried over winter in cold storage and good results from them cannot be expected.

We have received numerous gold and silver medals for our exhibits of Lilies at the exhibitions of the Massachusetts Horticultural Society, the most recent gold medal being on August 18, 1937.

List of Lilies Suitable for Spring Plantings

Auratum. (Golden banded lily of Japan.) Massive flowers, each with a distinct gold band, very fragrant. 25-50 cents each, \$2.50-\$5.00 doz.

Auratum Playphyllum. The immense flowers of this variety are very lightly spotted and are as much as 12 inches in diameter, the foliage is broader while the petals are overlapping and possess more substance than in the type. 30-50 cents each, \$3.00-\$6.00 doz.

Auratum Virginale. This is the purest white of all the auratums, any spots are yellow and not crimson, the same gold band, however, is found. An exquisite variety.

75 cents each, \$8.00 doz.

Auratum Pictum. Heavily spotted with rich crimson, a fine form. 75 cents-\$1.00 each, \$9.00 doz.

Auratum Rubro-Vittatum. Flowers in this beautiful form are heavily spotted dark rosy pink.

\$1.00 each, \$10.00 doz.

Batemanniae. A superb lily blooming in late July. The stems attain a height of 3-4 feet and this season many carried 10-20 flowers each. The upright facing flowers are of a rich orange apricot color. We have a grand stock of this splendid lily.

.35 each, \$4.00 doz., \$30.00 per 100

Candidum (Madonna Lily). While early fall is the best time to plant this lily we can furnish splendid started bulbs in spring in quantity and these will flower well. We cannot supply any more of the New Salonika form before late summer as the demand for this variety was very heavy last season. Watch our fall bulb catalogue for offerings of this sensational addition which we were the first to offer in America in 1936.

Strong flowering bulbs,

\$6.00 doz., \$45.00 per 100

Concolor. This charming rock garden lily comes to us from Siberia, it is an early bloomer with rich crimson scarlet flowers facing upwards, rarely exceeds 18 inches in height. Follows *tenuifolium* in its season of bloom.

30 cents each, \$3.00 doz.

Creelmanni. Can best be described as an extra fine form of *princeps* which is a *Regale* and *Sargentiae* hybrid from Canada. Flowering late it is very valuable. Flowering bulbs.

\$1.00-\$2.50 each

Chalcedonicum (Scarlet Turks Cap Lily). A native of Greece and one of the parents of *testaceum*. The brilliant scarlet recurring flowers are produced in July.

Extra large bulbs \$1.50 each, \$15.00 doz.

Strong flowering bulbs \$1.00 each, \$10.00 doz.

Centifolium. A magnificent new lily of great vigor and hardiness, introduced by the late Reginald Farrer. The immense pure white trumpet shaped flowers are flushed with yellow at the base of the trumpet, outside the trumpets are streaked with green and light brown. Stem rooter and requires deep planting. This seems destined to become one of our dominant garden lilies when stocks increase. Needs good winter protection. Good flowering bulbs.

\$1.00-\$2.00 each

Croceum. This is the true old orange lily of British gardens where it is seen growing luxuriantly on every hand, grows much taller than *umbellatum* and blooms later, not infrequently carrying 16-20 flowers to each stem. Color rich orange, one of our very best lilies.

40 cents each, \$4.00 doz.

Crows Hybrids. A splendid race of white trumpet lilies blooming later than regale, somewhat variable in type but containing some grand forms, developed in Canada and possess wonderful vigor. \$1.50-\$2.00 each

Dauricum pardinum. (syn. Iwato) A magnificent lily not blooming until August, has remarkable vigor growing 3-5 feet high and carries as many as 15-25 flowers on its husky stems. Flowers are soft orange in color and heavily spotted. A grand lily.

50 cents each, \$5.00 per doz.

Elegans (Thunbergianum). A dwarf growing and early blooming type, fine for mass effects and bedding, flowers are erect. Choice mixture.

25 cents each, \$2.50 doz.

Elegans Aureum Nigro-Maculatum. Apricot with black spots. 25 cents each, \$2.50 doz.

Elegans Alice Wilson. Lovely large pale yellow, deeper in center. 40 cents each, \$4.00 doz.

Elegans Atro-Sanguineum. Dark red, crimson in center. 25 cents each, \$2.50 doz.

Formosanum (Philippinense Formosanum). We are now using the European name for this fine lily, as bulbs of this hardy form are from Formosa and not the Philippines the older name should be dropped. This is the most remarkable lily introduced in late years, its ease of culture with its facility of increase from seeds makes it come within the range of everyone with a garden. Seeds sown early will produce flowering plants easily the same year. Has a wiry stem, long graceful leaves, trumpets are much longer and in the early form rather narrower than those of regale but similar in color, there is a pure white form favored for forcing but outdoors we much prefer the variety with the exterior of the trumpets pleasingly colored. Heavy stem rooter.

Early Variety. This starts blooming outdoors as regale finishes, plant 8 inches deep.

Late Variety. Blooms from mid-August until late October, grows taller than the early variety.

Price of both forms 30 cents each, \$3.00 doz., \$20.00 per 100.

Formosanum var. Triumphator. Lovely snow white trumpets grand for cutting.

30 cents each, \$3.00 per doz.

Giganteum Himalaicum. This is the tallest and most noble of all hardy lilies. Not a plant for the open garden, it must have moderate shade and the ideal location for it is an open glade in woodlands where it will be sheltered from strong harsh winds. The big bulbs should not be covered over 4 inches, a soil containing plenty of muck and peat moss, some old manure and coarse sand suits it. The big semi-pendant flowers are 12-15 inches long, pure white with a purplish base and midribs. We have immense bulbs and the largest sizes will bloom this season.

\$2.00-\$3.00 each, \$22.50-\$33.00 per doz.

Henryi (Henry's Lily). Sometimes called the "yellow speciosum." The orange yellow, reflexing flowers appear during August. Has very great vigor and sometimes attains the height of 8-10 feet. Extremely dependable.

25-50-75 cents each, \$3.00-\$5.00-\$7.50 doz.

Japonicum (Kramerii). A beautiful Lily with trumpets of pure peach pink flowers. The

stiff stems carry 2-6 flowers each and the flowers are at their best in mid-July. Planted in the open with merely a winter mulch of cranberry tops this Lily grows and blooms astonishingly well, must have perfect drainage and bulbs need covering 6 inches.

50 cents each, \$5.00 doz.

Martagon. The old purple Martagon lily is of very vigorous habit and often attains a height of 4-5 feet. 30 cents each, \$3.00 doz.

Martagon Album (White Turks-cap Lily). Pure waxy white flowers produced a few days later than those of Martagon.

50-60 cents each, \$5.00-\$7.00 doz.

Maximowiczii. A late August flowering lily, resembles tigrinum a little in habit and flowers but is a late bloomer and rather less vigorous. The recurring red flowers are spotted purplish brown. Cover bulb 6-8 inches.

40 cents each, \$4.00 doz.

Pride of Charlotte. A remarkable hybrid between regale and Sargentiae flowering 2 weeks later than regale and more nearly resembling Sargentiae.

\$1.50-\$2.50

Regale. Easily the most widely planted and popular Lily in America today. Succeeds under widely different conditions and is hardy, vigorous, floriferous, disease proof and absolutely dependable. The fragrant flowers have a delicate pink suffusion with a sulphury throat, externally the colorings show reddish brown through the white. We have a big stock of this glorious Lily and have this season marked prices down substantially.

.25-.35-.40-.60 cents each

\$2.50, \$3.00, \$4.00 to \$6.00 per doz.

\$20.00, \$30.00, \$40.00 to \$50.00 per 100

Sargentiae. Mrs. Sargent's lily flowers about three weeks later than regale, the large tubular flowers are pure white within, outside they are reddish brown. Plant at least 8 inches deep, be sure soil is well drained and this lily will thrive with you although not to the same degree as regale. 75 cents each, \$8.00 per doz.

Shelburne Hybrid. A very fine and vigorous hybrid between Sargentiae and regale raised in Shelburne, Vermont, resembles a much glorified Sargentiae but is a hardier and huskier grower than that variety. \$1.00-\$1.50 each

Speciosum Album. Large reflexing pure white flowers which are in season outdoors from mid-August until October. Also good for pot culture. 35-50 cents each, \$4.00-\$6.00 doz.

\$27.50-\$45.00 per 100

Speciosum Album Kraetzeri. A striking pure white form with green bands running down the center of each petal.

50 cents each, \$6.00 per doz.

Speciosum Magnificum. The large recurring flowers are rich carmine pink, margined white, a very fine variety.

25-50 cents each, \$3.00-\$5.00 doz.

\$20.00-\$40.00 per 100

Speciosum Melpomene. Dark carmine shaded purple, heavily spotted and margined white, an extra richly colored form.

40-50 cents each, \$4.00-\$6.00 doz.

\$30.00-\$40.00 per 100

Speciosum Rubrum. Carries both green and dark stems with rose colored flowers of vary-

ing shades. 25-50 cents each, \$2.50-\$5.00 doz.
\$20.00-\$40.00 per 100

Sulphureum. A superb late flowering lily from Upper Burmah which proves perfectly hardy in New England. The immense trumpet shaped flowers are pale yellow within, deepening towards the throat, the outside is tinted brownish red. Is also grand for pot culture. A late blooming variety attaining a height of 5-6 feet.

Good flowering bulbs. \$1.00 each, \$10.00 per doz.
Extra large flowering bulbs.

\$1.50-\$2.00 each, \$16.50-\$22.50 doz.

Sutchuenense. Somewhat similar to *Willmottiae* but has a much sturdier stem and the flowers are spotless, an exceptionally fine Lily. Stock limited.

\$1.50 each, \$15.00 doz.

Tenuifolium. Our earliest flowering Lily each year is the Siberian coral Lily, in 1939 the first flowers opened on May 29. A gem for the rock garden. Graceful foliage and brilliant recurving red flowers carried 6-20 on a stem. This Lily, under good conditions grows 3-4 feet high and we have counted 25 flowers to a stalk. Should be in every collection.

Extra large bulbs,

40 cents each, \$4.00 doz., \$30.00 per 100

Strong bulbs,

20 cents each, \$2.00 doz., \$12.00 per 100

Tenuifolium Golden Gleam. Usually classed as a hybrid between *tenuifolium* and *martagon album* but is more probably a sport, comes true from seeds. Orange yellow in color.

30 cents each, \$3.00 per doz.

Tenuifolium Red Star. A much glorified *tenuifolium*, flowers much larger than in the type and less reflexing, color brilliant red.

\$3.00 doz., \$20.00 per 100

Testaceum. The gloriously beautiful Nankeen Lily is the only known natural hybrid lily in existence, a cross between *candidum* and *chalconicum*. It should be planted shallow and prefers a well sweetened soil. Should be planted in fall, 4 inches deep; in spring, only from pots. The exquisite nankeen yellow flowers are carried 6-12 to a stalk and open in late June and early July. There is a demand for this lily far in excess of the supply. We have a large stock of splendid bulbs.

Strong flowering size \$1.50 each, \$16.50 per doz.
Good flowering size \$1.00 each, \$10.00 per doz.

Tigrinum. The old Tiger lily often seen growing splendidly about abandoned homes and along roadsides, gives a fine touch of color in mid-August, splendid for naturalizing.

20 cents each, \$2.00 doz., \$12.50 per 100

Tigrinum Flore-Pleno. A double form which is very pleasing, flowers a little later than the single form, rather less brilliant in color.

30 cents each, \$3.00 per doz.

Tigrinum Fortunei Giganteum. Extremely vigorous, growing 6 feet or more in height, sometimes carrying 30 flowers per stem, color salmon orange spotted deep purple.

25 cents each, \$3.00 doz., \$20.00 per 100

Tigrinum Splendens. An especially fine form with rich deep orange flowers, spotted black. By planting in late spring vigorous stalks may be had in flower as late as September 15.

25 cents each, \$2.50 doz., \$18.00 per 100

Umbellatum. Early and very free flowering hybrids, coming in many shades of color in season during June and early July. Fine mixture. 20 cents each, \$2.00 doz., \$12.50 per 100

Umbellatum Golden Fleece. Large umbellate heads of yellow flowers, a very rich and vigorous variety. 60 cents each, \$7.00 doz.

Umbellatum Grandiflorum. Extremely fine orange red form.

25 cents each, \$2.50 doz., \$18.00 per 100

Umbellatum Mahony. This beautiful deep crimson variety is admired by all who see it, dwarfer than Darkest of All and flowers later, is sometimes listed as Mahogany in European catalogues. Everyone seeing this lily wants to buy it. We have a grand stock and offer it at attractive prices.

30 cents each, \$3.00 doz., \$20.00 per 100

Umbellatum Splendidum. Rich vermillion and orange, robust grower large heads of flower.

50 cents each, \$5.00 per doz.

Willmottiae. Mrs. Willmott's lily is vigorous and hardy, attaining when established a height of 5-6 feet and carrying up to 30 flowers per stem. The recurring flowers are of a vivid reddish orange color and appear about mid-July. The foliage is graceful and the plant of a very refined appearance.

Extra large bulbs 75 cents each, \$7.50 doz.

Nice flowering bulbs. 50 cents each, \$5.00 doz.

The foregoing is by no means a complete list of Lilliums, many are unsuitable for spring plantings including all of our North American varieties in addition to some of the Asiatic and virtually all European varieties. A complete list of over 100 varieties will be found in our autumn bulb catalogue published in late July.

We cordially invite all interested in these bulbous aristocrats to come and look over our beds the coming season, a few blooms open in late May, during June, and July numerous varieties will be found flowering, others extend the season through August and September until late October. We will have a good many varieties in pots blooming ahead of the outside dates.

We ship Lilliums to as distant points as New Zealand and South Africa, and make many shipments to Great Britain, France, Canada, and other countries.

LILIUM SEEDS

A great majority of Lilliums come quite readily from seeds. Some like regale and all its hybrids, Pride of Charlotte, Willmottiae, Davidi, Formosanum, Henryi, tenuifolium, umbellatum, candidum Salonica var., amabile, concolor, longiflorum, and elegans will usually germinate within a month, sometimes in half that time. On the other hand auratum, speciosum, martagon, Marhan, the Backhouse hybrids, giganteum Himalaicum, and all North American varieties are very slow some requiring as much as 12 months to germinate, some of these will make a small bulb but no leaves the first season.

Sowing may be done under glass, in the home in winter, in cold frames, or the open about May 1. Rather late fall before sharp frosts is another good time to sow seeds outdoors or in a frame. Started early, Formosanum will flower the first season, a number of others will bloom the second season.

Seeds may be sown in either shallow drills or broadcasted, cover not over $\frac{1}{4}$ inch. For soil a mixture of garden soil, sand and either leaf mold or peat moss answers very well.

Unless otherwise priced seeds are 25 cents per pkt.; 12 vars., for \$2.00; larger pkts. for 50 cents and \$5.00 per doz. We will be happy to make up collection of easy germinating varieties for those wishful for a start in raising Lilies from seed.

Special Collection Easily Germinated Lilies 12 Varieties \$2.00

PRACTICAL BOOK ON LILIES

“Lilies and Their Culture in North America”

By William N. Craig

Covers the Culture of Lilies both in the Garden and Greenhouse, treats over 100 varieties. Profusely illustrated with full page plates. Covers such points as Lilies in History, Classification of Lilies, Geographical Distribution, Suitable Soils, Manures and Fertilizers, Lime and its Effects, the Value of

Mulches, Depths to Plant Lilies, Preparation of Soils, Lilies for Special Permanent Purposes, Lilies for Cutting, Insect Pests and Diseases, Propagation, Lilies for Pot Culture and Forcing, Notes on Varieties.

This, the first work on Lily culture in America, has been warmly praised by the Horticultural press of both America and Europe. 144 pages.

Price \$3.00 postpaid from the Author in Weymouth, Mass., or The Florists Publishing Co., South Dearborn Street, Chicago, Ill.

The Lily Year Book for 1939

Published by the Royal Horticultural Society in England. Contains splendid articles on Lilies. Finely illustrated. 180 pages with index. Of great value to everyone growing Lilies. Have a supply of this splendid Year Book and can mail promptly on receipt of orders. Price \$2.00 per copy.

RARE, UNUSUAL AND INTERESTING SEEDS

AQUILEGIA.	Long spurred, Blackmore & Langdons	25 cents pkt.
AQUILEGIA.	Long spurred, Mrs. Scott Elliotts	25 cents pkt.
CLEMATIS tangutica obtusiuscula.	(The new Golden Clematis.) Sown now will start flowering in late August, beautiful golden flowers. Has withstood 25 below zero without injury	50 cents
DELPHINIUM.	Blackmore & Langdon's Gold Medal. Easily the World's finest strain.	25-50 cents
	New Pacific strain blue shades	50 cents pkt.
	New Pacific strain pure white.	\$1.00 pkt.
EREMURUS.	Bungei, Robustus, Tubergeni, Shelford, Elwesianus, Elwesianus albus, Himalaicus. All fresh home saved seeds, Each	25 cents
	Collection of 7 vars.	\$1.50
LIATRIS.	Scariosa alba. Beautiful snow white variety, very scarce. Award of Merit, Massachusetts Horticultural Society, 1935	50 cents
PRIMULAS.	Collection of 6 hardy vars.	\$1.00
HERBS.	Fragrant and interesting collection of 20 easily grown vars.	\$1.00
	10 easily grows vars.	50 cents

INTERESTING BULBOUS PLANTS FOR SUMMER FLOWERING

ACIDANTHERA.

Bicolor. A charming, very fragrant bulbous plant from Abyssinia. White with chocolate markings in the throat.

10 cents each, \$1.00 per doz.

ANEMONE.

blanda. Beautiful blue. Give sun and good drainage 75 cents doz., \$6.00 per 100

ANEMONE.

Apennina. In both white and blue shades. 75 cents doz., \$6.00 per 100

ANEMONE.

St. Brigids. Not very hardy but if planted in early spring will bloom well. Splendid in cold frames 50 cents doz., \$4.00 per 100

AMARYLLIS.

Halli. (*Lycoris squamigera*.)

This hardy Amaryllis can be planted in spring or fall. It carries spikes of lovely fragrant pink flowers in August or early September. Strong flowering bulbs.

75 cents each, \$9.00 doz.

AMARYLLIS. Large Flowered Hybrids.

These carry immense flowers in a variety of rich colors.

Large bulbs. 50 cents each, \$5.00 per doz.

Mammoth bulbs. 75 cents each, \$8.00 doz.

BEGONIAS.

Tuberous rooted. Single or Double in 7 separate colors. Pure white, pink, scarlet, yellow, orange, crimson, salmon.

15 cents each, \$1.50 doz.

CINNAMON VINE. (*Dioscorea Batatas*.)

A rapid growing vine with heart shaped leaves and small cinnamon scented flowers.

10 cents each, \$1.00 per doz.

GALTONIA. (*Hyacinthus*.)

candidans. Sometimes called the giant summer snowdrop. Bulbous plant carrying very robust spikes, 3-4 feet high, circling which are numerous large snowdrop-like flowers.

\$1.25 doz., \$10.00 per 100

GLOXINIA.

Five distinct colors, grand bulbs.

20 cents each, \$2.00 doz.

HYMENOCALLIS.

Calathina (also known as Ismene and Pancratium.)

The "Spider Lily" or "Peruvian Daffodil" carries deliciously fragrant spikes of pure white flowers in late June or July. Plant 3 inches deep when warm settled weather has arrived. Lift and store with roots attached and pack in sand or peat moss over winter in a warm cellar.

25 cents each, \$2.50 per doz.

MONTBRETIA.

The new Earlham Hybrid Montbretias show a tremendous advance over the old varieties in common culture. Flowers run from 2½-4 inches in diameter, in some cases attaining a height of 3-4 feet, they flower very freely with well branched spikes and all buds open out in water. Plant 4 inches deep in May. Store bulbs in soil or peat moss over winter. The following are outstanding varieties:

Apricot Queen. (New.) Superb rich golden yellow apricot, extra large.

25 cents each, \$2.50 doz.

Fiery Cross. An immense fiery orange with large crimson blotch in centre.

30 cents each, \$3.00 per doz.

Golden West. A fine deep yellow, with orange shading 10 cents each, \$1.00 doz.

George Davison. A fine light orange with well branched spike 10 cents each, \$1.00 doz.

His Majesty. Deep yellow shading to bright

scarlet, a grand variety with flowers as much as 4 inches in diameter, has great vigor.	10 cents each, \$1.00 doz.
King Edmund. Golden orange with carmine blotted centre	10 cents each, \$1.00 doz.
Lady Hamilton. A charming large apricot variety with wide band of apricot rose.	10 cents each, \$1.00 doz.
Lord Nelson. Orange with red shading, vermillion outside	10 cents each, \$1.00 doz.
Princess Mary. Pale yellow, lightly tipped red, a fine variety	20 cents each, \$2.00 doz.
Prometheus. Very rich orange with deeper ring round eye	20 cents each, \$2.00 doz.
Queen of Spain. Immense pure golden orange flowers, reverse golden apricot.	20 cents each, \$2.00 doz.
Queen Alexandra. Pale orange yellow with deeper bars across petals	10 cents each, \$1.00 doz.
Star of the East. Superb spikes of deep golden orange, very handsome.	25 cents each, \$2.50 doz.
Una. Rich apricot with carmine blotch.	20 cents each, \$2.00 doz.
Fine Mixture, All Colors.	10 cents each, \$.75 doz.

TIGRIDIAS

These very colorful bulbous plants if planted outdoors any time after May 15 in full sunshine will furnish a long succession of their large and strikingly beautiful flowers. Bloom as late as Nov. 1 in the average season.

Alba. Pure white with carmine spotted centre.
Immaculata. Absolutely snow white.
Carminea. Light orange scarlet, centre yellow.
Canariensis. Yellow, centre spotted red.
Lutea immaculata. Pure yellow.
Lilacea immaculata. Crimson, white ring in centre. White band on each petal.
Rosea immaculata. Pure pale pink.
Red Giant. Extra large scarlet.
Rose Giant. Very large pure pink.
Rosea. White and pink.
Speciosa. Scarlet, centre golden yellow with scarlet spots.
Mixed. Extra fine mixture of all varieties.
Named varieties 12 cents each, \$1.25 per doz.
Mixture of all colors 10 cents each, \$1.00 per doz.

TUBEROSES

Double Pearl.	\$1.00 doz.
Single Everblooming Mexican.	10 cents each, 75 cents per doz.

Plant tuberoses about May 15 and onwards, in a warm, sunny, well drained location.

ZEPHYRANTHES. (Fairy Lily.)

These interesting bulbous plants are suitable for cultivation in pots, pans, tubs and outdoors, when planted out in warm ground they succeed much the best and their blooming season extends until sharp frost.

Ajax. Pure yellow, a rather rare and scarce variety	15 cents each, \$1.50 doz.
Candida. Snow white and very lovely, flowering with us outdoors last season until November	10 cents each, 75 cents doz.

Rosea. Clear rosy pink, the variety more seen than any other.

15 cents each, \$1.50 per doz.

HARDY VINES OR CLIMBERS

ACTINIDIA.

arguta. Splendid Japanese climber, rich, shiny foliage, white flowers, followed by sweet edible fruits \$1.75-\$1.00

AKEBIA.

quinata. (Five leaved Akebia.) Green clover like foliage and drooping dark purple flowers. \$1.50-\$1.75

AMPELOPSIS.

quinqeolifolia. (Common woodbine or Virginia creeper.) Very vigorous native vine, beautiful foliage in fall 50 cents
quinqeolifolia var. *engelmanni*. Carries extra strong tendrils which cling very tightly to anything. 50 cents

Veitchi (Boston ivy). An immensely popular climber for covering walls, foliage very brilliant in fall 50 cents

ARISTOLOCHIA.

sipho (Dutchman's pipe.) Rapid growing climber with large leaves, makes a fine screen, 3-4 feet. \$1.00-\$1.50 each

BIGNONIA.

radicans. (Trumpet-creepers.) Vigorous climber, fine for covering unsightly objects. The flowers are large deep red with orange throat. 50 cents
grandiflora. Larger and richer colored flowers, a little more tender than *radicans*, does finely along the coast \$1.00-\$1.50

CELASTRUS. (Bittersweet.)

orbiculatus. Japanese bittersweet. Robust climber for covering walls, fences and banks covered in fall with rich orange fruits \$1.50-\$1.75

scandens. Common bittersweet. Very showy orange fruits which cling to the shoots practically all winter \$1.50-\$1.75

CLEMATIS

We call special attention to the fine list of these we are offering this season. As there have been many failures in growing Clematis a few simple directions as to their culture may not be out of place here, this refers more especially to the large flowered varieties as with the small flowered section failures are comparatively few. Plant where there is not more than 4-5 hours sunshine a day and use either low growing plants or peat moss to help keep roots cool. Excellent drainage is very necessary, clematis like a rich soil but not too heavy, they are all lime lovers so a little sprinkling about them occasionally will be helpful. Well rotted cow manure is an ideal fertilizer and fine bone while slow acting is safe and valuable, spite of contrary opinions occasionally expressed.

Be sure to provide suitable trellises or wire supports, for the plants should not be fastened too close to stone or brick walls. The small flowered section can be headed back hard each spring but the large flowered group simply require old wood which is dead or nearly so removed. Our plants are mainly in pots of both sections, a limited number being wrapped in sphagnum moss and waterproof paper, all are staked, planting can thus be done over quite a long season.

LARGE FLOWERED SECTION

Each

Admiration.	Large salmon pink trumpet shaped flowers	\$1.50
Ascotiensis.	A very lovely azure blue	\$1.00
Belle of Woking.	Lovely large double silvery mauve blooms	\$1.25
Comtesse de Bouchard.	A very pleasing pink	\$1.00
Crimson King.	An extra large red, very striking	\$1.50
Duchess of Albany.	A charming trumpet shaped pink	\$1.50
Duchess of Edinburgh.	A very popular large single white	\$.75
Elsa Spath.	Large and lovely bright blue.	\$1.00
Gipsy Queen.	Dark purple violet, distinct and striking	\$1.25
Henryi.	A fine dependable single pure white.	\$.75
Jackmanni.	A grand old reliable deep purple.	\$.75
King Edward VII.	Large violet with crimson bars.	\$1.50
Lady Caroline Neville.	French white with mauve bars.	\$1.25
Lawsoniana.	Extra large blue.	\$1.00
Mme. Baron Veillard.	Large lilac rose.	\$.75
Mme. Edouard Andre.	A very popular old red variety, fine grower.	\$.75
Nelly Moser.	Beautiful large mauve with red bars.	\$1.25
Prins Hendrik.	Immense ruffled azure blue flowers, outstanding.	\$1.50
Ville de Paris.	Blue with red stripes, fine variety.	\$.75
William Kennett.	Rich deep lavender, large flowers.	\$1.00

SMALL FLOWERED SECTION

Each

Crispa.	Bell shaped blue flowers, very pretty.	75 cents
Davidiana.	Included under Herbaceous Perennials.	
Montana alba.	Pure white early.	75 cents
Montana rubens.	Rosy red, medium sized flowers.	75 cents
Montana undulata.	Mauve pink, early bloomer.	75 cents
Paniculata.	White fragrant Japanese variety, very popular.	50 cents
Recta.	See Herbaceous Perennials.	
Tangutica obtusiuscula.	The golden yellow Clematis.	\$1.00
Texensis (coccinea).	Urn shaped scarlet flowers.	75 cents

EUONYMUS. (Wintercreeper.)

Kewensis.	A splendid low growing trailer with small, dark green oval leaves, fine in the rock garden.	50 cents each, \$5.00 doz.
minimus.	Very fine variety, suitable for rock gardens.	50 cents each
radicans.	Splendid, thoroughly hardy evergreen climber.	\$.50-\$1.00 each
radicans vegetus.	Broader leaves than type, hedge plant or climber, fruits very abundantly. Succeeds equally well in sunshine or shade.	25 cents to \$2.00 each

Each

HEDERA.

helix. (English Ivy.) Splendid evergreen for walls, succeeds best in partial shade, also fine as ground cover. Strong plants.

\$25-\$1.00

Baltica. Small leaves, very hardy type, suitable for New England.

\$25-\$1.00

gracilis. Very fine leaved variety, and admirable climber.

\$25-\$0.50

Pittsburgh. This name has been given to a very branching variety of the common English ivy.

\$25-\$0.50

We have small stocks of a number of other ivys, including the following: *coreacea*; *chrysocarpa*; *discolor*, *argentea*, Mrs. Pollock, silver Irish, *poetica*, and golden variegated. Strong plants. 50-75 cents

HYDRANGEA.

petiolaris. Climbing hydrangea. Strong. \$1.50-\$3.00

JASMINUM.

nudiflorum. The hardy yellow jasmine, given a well sheltered position this fine climber is perfectly hardy near Boston, it flowers very freely during January and February.

Strong field plants.

\$75-\$1.50

LONICERA. (Honeysuckle.)

Japonica Halleana. Fragrant white to soft yellow flowers all summer.

50 cents

Semperfivirens Magnifica. A superior ever-blooming form with long tubular salmon scarlet flowers.

75 cents

Tellmanniana. The new golden giant honeysuckle. Rich golden flowers shaded red. 75 cents

LYCIUM. (Matrimony Vine.)

Pale purple flowers, later attractive orange and red fruits along the branches.

50 cents

POLYGONUM.

auberti. Superb for rambling over trees, strong climber covered with clouds of fleecy like pure white flowers.

\$75-\$1.00

VITIS.

Coignetiae. Strong growing vine, splendid for covering trees and arbors with a thatch of heavy handsome foliage. Strong plants in pots.

\$1.00

WISTERIA.

Sinensis. Blue Chinese Wisteria. Grafted

plants which are guaranteed to flower. \$1.00-\$2.00

Extra large 6 years old.

\$4.00

Sinensis alba. A pure white form of the foregoing.

\$1.00-\$3.00

We have a limited number of strong Wisterias grown in standard form with sturdy stems and fine heads, both in pure white and pink at \$7.50 each. These are splendid for tub culture or to plant in perennial borders. Judicious pinching easily keeps them in proper shape.

AZALEAS

We have pleasure in offering an extra fine selection of these beautiful shrubs.

Each

altaclarensis. Lovely rich yellow.

\$3.00-\$4.00

arborescens. (Sweet Azalea.) Fragrant white flowers in July. Extra strong.

\$1.50-\$3.00

	Each
calendulacea. (Flame Azalea.) Shades run from yellow to deep orange, flowering in late May and early June.	\$2.00-\$3.00
Ghent Hybrids. Large flowers in a variety of colors, very strong.	\$2.00-\$3.00
japonica. (Japanese Azalea.) Large clusters of rich orange flowers.	\$2.00-\$3.00
Kaempferi. (Japanese Torch Azalea.) Brilliant red flowers.	\$1.50-\$4.00
mucronulatum. (Mongolian Azalea.) Strong clumps 15-18 inches.	\$3.00
mollis. (Chinese Azalea.) Various colors.	\$2.00-\$3.00
Miss Louise Hunnewell. Deep yellow to orange colors.	\$2.00-\$5.00
Poukhanensis. (Korean Azalea.)	\$2.50-\$4.00
Schlippenbachii. (Royal Azalea.) Lovely pink flowers, extra strong.	\$2.00-\$3.00
Vaseyi. (Pinkshell Azalea.) Beautiful pink color, early bloomer.	\$2.00-\$4.00
Viscosa. (Swamp Azalea.) White flowers, late bloomer.	\$1.50-\$3.00
The following are evergreen varieties.	
amaena. Conspicuous small purplish red flowers, abundantly produced very early.	\$2.00-\$3.00
Ledifolia Alba. (White Indian Azalea.) Large single white flowers.	\$3.00-\$4.00
Yodogawa. Double pinkish lavender flowers, very hardy.	\$2.50-\$3.00
ARONIA.	
arbutifolia. White flowers followed by brilliant red fruits.	75 cents
BERBERIS.	
vernae. Makes a handsome shrub covered with yellow flowers in early summer and followed by salmon fruit and rich autumn foliage.	75 cents
aggregata Pratti, 2-3 feet. A handsome barberry.	75 cents
BUDDLEIA. (Butterflybush.)	
alternifolia. A fine addition to our summer flowering shrubs, blooms on the old wood. The pretty lilac to lavender racemes are very abundantly produced.	\$.50-\$1.00
ile de france. Fine novelty. Richest and darkest of the genus, glowing claret purple racemes a foot long with tightly packed flowers.	\$.50-\$75
magnifica. Vigorous free blooming over a long season, plants are best cut down to the ground each spring, this ensures much finer racemes.	\$.50-\$75
Charming.	
This lovely variety was introduced in 1938 and has given great satisfaction, it comes nearest to a pure pink of any Buddleia yet introduced.	50-75 cents
Hartwegi.	
A 1937 novelty which has made good, similar to magnifica in some respects, the flowers are however far more densely packed on the spikes.	50-75 cents
DUBONNET. (New 1939.)	
Here we have an entirely new color in Buddleias which has been popularized in dress fabrics viz. Dubonnet, under sunshine it glows like a true red, very robust, a fine acquisition.	\$.50-\$1.00

NOTE:

All buddleias except *alternifolia* (which blooms on the old wood) grow and bloom much better if cut down to near the ground each spring.

Each

CALLICARPA.

Japonica. Pink flowered shrub of attractive habit, the flowers are followed by beautiful blue berries. 75 cents

CALYCANTHUS.

Floridus. (Sweetshrub or Spicebush.) Fragrant chocolate covered flowers. \$0.75-\$1.00

CARYOPTERIS. (Blue Spiraea.)

incana. Silvery green foliage and clear blue flowers, sometimes called the blue Spiraea, very free flowering. 50 cents

mastacanthus, pure pink, a splendid companion to the blue and white varieties of this very desirable late flowering shrub. 50 cents

mastacanthus, pure white, a grand addition to the Caryopteris family blooming in the late fall. 50 cents

CERASUS**JAPANESE CHERRY**

Each

Kwanzan. Extra fine double pink. \$2.00-\$4.00

Shirofugen. Double blush pink. \$2.00-\$4.00

Subhirtella Pendula. Both single and double flowered 6 feet standards. \$4.00

Yedoensis Yoshino. Splendid single pink. \$2.50-\$3.50

NOTE: We have a limited number of extra heavy specimens 10-12 feet of standard Japanese cherries at \$7.50 each.

CHIONANTHUS.

Virginica. (Fringe Tree.) Dark foliage and white fringed flowers forming an almost cloud like head. \$1.50-\$2.00

CLETHRA. (Sweet pepper bush.)

alnifolia. White fragrant flowers in late summer. 50-75 cents

CORNUS.

Florida. (White Dogwood.) A handsome low growing tree. \$2.00-\$5.00

Florida rubra. (Pink flowering Dogwood.)

Extra strong. \$3.00-\$5.00

kousa chinensis. (Kousa Dogwood.) Flowers much later than *C. florida*, carries a great wealth of pure white flowers. \$2.50-\$5.00

mas. Bright yellow flowers in very early spring. 75 cents

COTONEASTER.

Aldenhamensis. Robust and very hardy variety.

buxifolia. Graceful arching shrub, shiny rich green foliage, red fruits. \$1.00

Dammeri. Prostrate, training habit, rich green foliage, bright red fruits. \$1.00

horizontalis. Makes a splendid shrub, the brilliant fruits are carried all winter.

75 cents-\$1.50

divaricata. Handsome erect variety with brilliant autumn foliage, carry a wealth of scarlet fruits. \$1.00-\$1.50

microphylla. Very suitable for the rock garden, does not grow too robust. Colors up beautifully in autumn. \$1.00

Each

salicifolia floccosa. Handsome variety with evergreen foliage. \$1.00

Plants of all *Cotoneasters* are either in pots or balled.

CYDONIA:

Japonica. Scarlet Japanese Quince. \$0.75-\$1.00

Mawley. Rich blood red flowers, a dwarf grower. 75 cents

We also have a limited number of both pink

and pure white Japanese Quinces .. \$1.50-\$2.50

CRATAEGUS. (Hawthorn.)

oxycantha splendens. Paul's double scarlet thorn. Beautiful tree with double deep rose pink flowers which are produced in great profusion, 5-6 feet. \$2.00-\$3.00

oxycantha. Double white. \$2.00-\$3.00

DAPHNE.

mezereum. Rosy purple, very fragrant flowers in late winter. Blooms appear well in advance of leaves. Evergreen. Strong plants.

\$1.00-\$2.00

mezereum album. This is a scarce snow white variety of which we offered and sold a fair number last year. We are now able to offer extra fine plants as follows:

Strong bushy plants, 18-24 inches B. & B.

\$2.50-\$3.00

Ex. strong bushy plants, 24-30 inches B. & B.

\$4.00-\$5.00

DEUTZIA.

Lemoinei. Of upright habit with pure white flowers. 50-75 cents

Scabra var. Pride of Rochester. Double white, robust grower. 75 cents

Scabra rosea. Double pink flowers in early July. 75 cents

DIERVILLA. (Weigela.)

candida. White weigela. 50-75 cents

Eva Rathke. Fine hybrid variety, bright crimson. 50-75 cents

floribunda. Crimson weigela. 50-75 cents

rosea. Pink weigela. 50-75 cents

ENKIANTHUS.

campanulatus. Splendid Japanese shrub, the flowers are bell shaped, yellow and borne in racemose clusters, stained salmon and crimson, carries brilliant autumn foliage. \$1.50-\$3.00

ELSCHOLTZIA.

Stauntoni. A very desirable fall flowering shrub with lavender pink flowers. 75 cents

EXOCHORDA.

grandiflora. (Pearlbush.) Racemes of pure white flowers in May. Order early. \$1.50

Wilsoni. Much improved and hardier variety.

Extra strong. \$2.00

FORSYTHIA.

intermedia spectabilis. Far the best of the genus, branches are very dense flowered with deep golden flowers. 50-75 cents

ovata. Much the earliest bloomer of all the forsythias, a splendid novelty. 18-24 inch plants. 75 cents

primulinus. Paler in color than *Spectabilis*, of excellent habit, a fine variety. 50-75 cents

FOTHERGILLA.

major, a very attractive shrub of pyramidal habit, flowering in late April or early May, dark green somewhat glossy leaves, flow-

Each

ers are white and appear with the leaves.
A sterling novelty. Strong 18-24 inch
clumps. \$1.50-\$2.50

HALESIA. (Silverbells.)

tetraptera. Snowdrop tree. Lovely white bell
shaped flowers. Attains the height of a
small tree. 75 cents

GORDONIA.

Alatamaha. (Also known as Franklinia.) A
beautiful late flowering tree hardy in
Massachusetts where given a little protec-
tion the pure white flowers are 3 inches in
diameter and appear in late September or
October. A very scarce plant, none being
known to exist in a wild state. We have a
few plants. 2-2½ feet. \$2.50

HAMAMELIS.

mollis. Splendid Novelty. This Chinese Witch-
Hazel is a winter bloomer, still very scarce.
.... \$1.00-\$2.50

vernalis. (Vernal Witch-Hazel.) Very early
bloomer. Strong plants 2-3 feet. 75 cents

virginiana. (Common Witch-Hazel.) 3-4 feet.
.... 75 cents

HIBISCUS (Althea or Rose of Sharon.)

Coeleste. Lovely large single pure blue. \$.75

Rubus. Single deep pink. \$.75

Totus Albus. Beautiful single snow white. \$.75

While the single varieties of Rose of Sharons are
proving much more popular than the doubles we also
carry several varieties of the latter in stock. Owing
to their late flowering qualities these shrubs are of
especial value in the garden.

HYDRANGEA.

arborescens grandiflora. Ever blooming
hydrangea. 50-75 cents

Paniculata grandiflora. Japanese panicled
hydrangea. 50-75 cents

HYPERICUM.

Forresti. Makes a neat low growing shrub,
golden yellow flowers. 50-75 cents

prolificum. Another excellent and hardy vari-
ety. 50-75 cents

ILEX.

verticillata. (deciduous holly, black alder.)

Stems are packed with brilliant red berries
in late fall. 50-75 cents

KERRIA.

Japonica. Orange yellow flowers, has very
attractive deep green bark in winter. 50-75 cents

We can supply both single and double forms of
Kerria.

KOLKWITZIA.

amabilis. (Beautybush.) A remarkably beau-
tiful flowering shrub introduced by E. H.
Wilson from Western China. Extremely
hardy, will attain a height of 6-8 feet and
as much in diameter. Is a veritable shower
of lovely pink tubular shaped flowers in
early June. Strong field grown plants.

.... 75 cents-\$2.50

LABURNUM.

vulgare. Better known as "Golden Chain tree."

4-8 ft. \$1.50-\$3.50

LONICERA. (Honeysuckle.)

fragrantissima. Fragrant winter honeysuckle.

.... 75 cents

maackii podocarpa. Strong growing variety,
smothered with very handsome fruit after

Each
flowers have passed, carried until October. \$1.00

Morrowi. Morrows honeysuckle. White flowers followed by red fruits, makes a very wide spreading bush. 50-75 cents
tatarica alba. White upright growing variety, extra vigorous. 50-75 cents
tatarica rubra. Red flowered form, carries handsome fruits. 50-75 cents

MAGNOLIA.

glauca. Fragrant creamy white flowers and handsome foliage, strong plants 4-5 feet
B. & B. \$3.00-\$4.00
stellata. The lovely white "Star Magnolia" which makes a fairly high and wide shapely bush, blooms very early. Extra fine heavily budded plants. \$4.00-\$7.50
soulangeana. Great purplish pink cup shaped flowers in early spring, strong plants. \$3.00-\$7.50

MALUS. (Ornamental Crabapple.)

arnoldiana. Pure white flowers, habit is spreading, a lovely picture when in flower. Extra strong. 4-5 feet. \$1.50
floribunda. Makes a wide, shapely and dense habited low tree, attractive both in flower and fruit. \$1.50
floribunda atrosanguinea. A deep blood red form. \$1.50
ioensis flore-pleno. (Bechtel Crab.) Large double, delicate pink, and very fragrant flowers, the latest bloomer of the family. 5-6 feet. \$2.00-\$3.00
sargentii. (Sargent's Crab.) Low, spreading variety with pure white flowers followed by red fruit, a very beautiful form. \$1.50
scheideckeri. Large double pink flowers, profuse bloomer. \$1.50
spectabilis flore-pleno. Semi-double pink flowers, followed by yellow fruits. \$1.50
theifera. One of the late E. H. Wilson's great favorites, stiff spreading branches smoothed with white or delicate pink flowers, a real gem. Strong plants. \$1.50-\$2.00

NEILLIA.

Sinensis. This pretty and graceful shrub belongs to the natural order Rosaceae, the terminal racemes of flowers are pink in color. This has stood the most severe winters in New England without winter killing. \$1.50

OXYDENDRUM.

arboreum (Sorrel Tree.) Of moderate height and rather slow growth this is very fine for dotting in shrubberies. The oblong leaves are quite large and rich green turning brilliant red in the fall. In summer the white racemes of flowers are very freely produced.

5-6 feet, \$2.50. 6-8 feet. \$4.00

PHILADELPHUS. (Mockorange.)

avalanche. Graceful hybrid of moderate habit. 75 cents
coronarius. The well known sweet mock-orange. 75 cents
grandiflorus. Tall odorless mockorange. 75 cents
manteur d'hermine. A splendid hybrid. 75 cents
virginal. The finest of all the hybrids, large double white, very fragrant flowers. 75 cents-\$1.50

PRUNUS. (Plum or Almond.)

glandulosa. Double pink flowering almond. \$1.00

	Each
<i>glandulosa alba</i> White Almond.	\$1.00
<i>triloba</i> . Double pink plum, carries in early spring a wealth of lovely peach pink flow- ers.	75 cents-\$1.00
RHODORA.	
<i>Canadensis</i> . Carries distinct azalea like rosy mauve flowers in late spring, a lovely na- tive plant.	\$1.00-\$1.50
SIMPLOCOS.	
<i>cratogoides</i> (Turquoise berry.) The Turquoise blue fruit of this attractive shrub are its great charm.	\$1.50-\$2.50
SPIRAEA.	
<i>Anthony Waterer</i> . Bright rose carmine flow- ers all summer.	50 cents
<i>arguta</i> . Charming pure white variety.	50 cents
<i>prunifolia</i> . Double pure white flower in great abundance.	50 cents
<i>Thunbergi</i> . Graceful variety, pure white, very early.	50 cents
<i>trichocarpa</i> . This new spiraea is a later bloomer than <i>Van Houttei</i> and a much better variety. Its stems arch gracefully and are smothered with pure white flow- ers. Strong field grown plants.	75 cents-\$1.00
<i>Van Houttei</i> . Although much over-planted this remains the most popular of all the Spiraeas.	50 cents
SYMPHORICARPOS.	
<i>chenaulti</i> . A very fine hybrid raised at the Arnold Arboretum.	50 cents
<i>racemosus</i> . (Snowberry.) A popular old shrub.	50 cents
SYRINGA. (Lilac.)	
<i>josikaea</i> . Hungarian lilac. Valuable late blooming variety.	\$1.00
<i>persica</i> . (Persian lilac.) Graceful shrub with arching branches, lilac flowers in May or early June.	75 cents-\$1.00
<i>persica alba</i> . (White Persian lilac.) Lovely pure white variety.	75 cents-\$1.00
<i>rothmagense</i> (Chinese lilac.) Makes a grace- ful bush.	75 cents-\$1.00
<i>vulgaris</i> . (Common purple lilac.) Fine for hedges or masses, extra strong plants.	50-75 cents
<i>vulgaris alba</i> . (Common white lilac.) Just as vigorous and free as the purple variety.	75 cents

CHOICE NAMED HYBRID LILACS

Charles X. Large single lilac colored panicles.	
Congo. Very dark purple.	
Hugo Koster. Single, dark reddish purple.	
Jan C. Van Tol. Splendid single, pure white.	
Jacques Calot. Single delicate rosy pink.	
Katherine Havemeyer. Fine double cobalt blue.	
Mme. Casimir Perier. Excellent double white.	
Mme. Lemoine. Superb double white.	
Macrostachya. The finest of all pink lilacs. I am pleased to be able to offer this lovely variety in small plants.	\$2.00-\$2.50
Marie Legraye. Still unsurpassed as a single white.	
Michael Buchner. Very good double pale lilac.	
Mrs. Edward Harding. Extra large double red.	
Lucie Baltet. Very pleasing pink.	\$2.50
Philemon. Very dark purple, outstanding variety.	

President Grevy. Fine double blue.

Souvenir de Ludwig. Späeth Grand single reddish purple.

Virginite. Splendid single white.

Prices of Named Hybrid Lilacs except otherwise priced. \$1.00-\$2.00

extra strong \$2.50

NOTE—a large proportion of our hybrid lilacs are on their own roots.

TAMARIX.

africana. (African tamarix.) Excellent sea-side plant. 50 cents

gallica. (French Tamarix.) Specially good for seashore. 50 cents

Summer Glow. (New, 1939.)

Here we have a wine red Tamarix one of the few novelties in flowering shrubs offered last season. Like all of the Tamarix varieties it is impervious to salt water spray and gives us an entirely new color in summer flowering shrubs. \$1.00

TRIPTERYGIUM.

regelii. This new shrub from Manchuria and Korea carries big feathery plumes of creamy white flowers in July and August, it is a strong grower and absolutely hardy. In addition to its use as a robust shrub it can be effectively trained against a trellis. \$1.00-\$1.50

VIBURNUM.

carlesii. Fragrant viburnum. A very early flowering and extremely fragrant variety.

\$1.50-\$3.00

fragrans.

We are pleased to be able to offer some nice 2-3 feet plants of this early flowering sweetly scented Viburnum. \$2.50

opulus. (High bush cranberry.) White flowers followed by bunches of brilliant scarlet cranberry like fruits. 75 cents

opulus sterile. (Common snowball.) Guelder rose. Large round pure white heads of flower. 75 cents

tomentosum. A very attractive shrub with wide spreading branches and pure white flowers dotted thickly along them. 75 cents

plicatum. (Japanese snowball.) Large pure white heads of flower in early June. 75 cents

VIBURNUM BURKWOODI (New, 1939)

Gardenia scented snowball, Improved Carlesii.

About everyone knows and loves Viburnum Carlesii, here we have a variety which is proving to be a better grower with waxy pink deliciously fragrant flowers in early spring when leaves are unfolding. The round domed clusters of flowers have a Gardenia like fragrance which pervades a large area. Has been tested and passed through severe winters unscathed. Raised by a noted firm of English hybridists this new acquisition makes a very shapely shrub 4 feet high and rather wider. Brilliant foliage in fall.

Strong healthy plants with ball, \$2.50 each, 5 for \$10.00.

Stronger plants, 2-3 feet. \$4.00 each

VITEX.

macrophylla. This little known shrub proves perfectly hardy in Massachusetts and carries erect terminal panicles of bright blue flowers during September and October. It is the latest blooming of all deciduous shrubs. A shrub which when seen in flower everyone wants. Strong plants. 75 cents

BROAD LEAVED EVERGREENS

BERBERIS.

Hardy Evergreen Varieties of merit.

julianae. Broad spiny leaves which color up beautifully in fall. 18-24 inches. \$1.00
triacanthophora. Dense habit and small lightly spined leaves, colors up finely in fall and winter. 18-24 inches. \$1.00

BUXUS. (Boxwood.)

Sempervirens. We have a splendid stock of these in various sizes both bush and pyramidal in form. Prices vary from 50 cents to \$6.00. Inspection invited.

Suffruticosa. Dwarf English Boxwood.

The only variety suitable for low hedges 6-7 inch plants. \$2.00 per doz., \$15.00 per 100

DAPHNE.

Cneorum. (Rose or Fragrant Daphne.) An immensely popular low growing evergreen, pink very fragrant flowers in May, grow in full sun for best results. We have a splendid stock in several sizes.

50-75 cents-\$1.50-\$2.00

EPIGAEA.

repens. (Mayflower.) Strong clumps. \$.50-\$1.00

EUONYMUS.

microphyllus. Very fine leaves, resembling boxwood, makes a neat little bush admirable for the rock garden. Small plants in pots 25 cents, strong field grown plants.

50 cents-\$1.00

ERICA.

carnea (Spring Heath.) Bright rose, often flowering in late February and March.

darleyensis (Darley Heath.) Early flowering deep rose.

tetralix (Cross leaved heath.) Gray green leaves, pink bell shaped flowers.

vagans (Cornish Heath.) Light green foliage, pale lilac flowers.

vulgaris compacta (Calluna.) Grows 4-6 inches high, moss like growth, flowers pale lavender, foliage deep green.

vulgaris humilis (Low Scotch Heather.) Flowers white, height 4-7 inches, rich green foliage.

vulgaris rubra (Red Scotch Heather.) Spreading growth 6-12 inches high, rosy carmine flowers, foliage reddish purple in fall.

vulgaris (Purple Scotch Heather.) Grows 12-15 inches tall, purple flowers in mid-season.

Prices of the hardy Heaths, 50 cents, \$5.00 doz.

HEDERA.

helix conglomerata. Fine shrubby variety of English ivy, very unique. Excellent for the rock garden. 50 cents-\$1.00

helix stricta. More upright growing than the preceding, another fine form for the rock garden. 50 cents-\$1.00

ILEX.

crenata convexa. (Japanese Box Holly.) A splendid hardy evergreen, which should become immensely popular, 15-18 inch plants.

\$1.50-\$3.00

glabra. (Ink Berry.) Another very useful evergreen, extra strong plants. \$1.50-\$3.00

helleri. (New.) A very compact and neat growing variety with small foliage, it is more prostrate in habit than other varieties and

is one of the finest evergreen novelties in recent years. Fine specimens in several sizes.

\$1.50-\$5.00

opaca. The evergreen fruiting American holly.

Strong plants. \$2.50-\$3.00

KALMIA.

latifolia. (Mountain Laurel.) Fine nursery

grown established plants. \$1.50-\$5.00

LEUCOTHOE.

Catesbeei. (Drooping leucothoe.) \$1.50-\$2.50

LONICERA.

nitida. A splendid novelty from Western

China, makes a splendid hedge plant, and is virtually evergreen. Much more rapid growing than box. Shapely and handsome and makes an admirable pot plant.

\$2.25-\$5.00-\$1.00

MAHONIA.

aquifolium. Rich shiny foliage, fragrant yellow flowers in late spring.

Strong clumps. \$1.50-\$2.50

PACHYSANDRA. (Japanese spurge.)

terminalis. Splendid low growing evergreen,

makes a complete mat, succeeds finely in heavy shade where grass will not grow.

Plants from pots.

15 cents each, \$1.50 doz., \$10.00 per 100

PIERIS. (Andromeda.)

floribunda. 15-18 inch spread. \$2.00-\$3.00

Japonica. More upright growing than *floribunda*, very rich glossy foliage which takes

on attractive shades while young. The white drooping racemes are very freely produced.

\$1.50-\$4.00

RHODODENDRONS

We have a very good selection of these splendid broad leaved evergreens, especially fine are the hybrid varieties which are the best we have had to offer, plants run from 18 to 36 inches in height and are splendidly budded.

Album Elegans. Splendid pure white.

America. A good, deep clear red.

Amphion. Fine clear pink with white eye.

Boule de Niege. Early flowering pure white.

Catawbiense Alba. Large snow white trusses.

Dr. H. J. Dressulhuys. An excellent deep red variety.

Everestianum. Delicate rosy lilac, extra large trusses.

Ignatius Sargent. A beautiful light red.

Kettledrum. A grand old variety, deep red.

Lees Dark Purple. Frilled flowers of a deep dark purple color, striking.

Mrs. C. S. Sargent. Deep pink, very compact grower.

President Lincoln. Delicate lilac pink, foliage small.

Roseum Elegans. Rosy pink, splendid foliage.

Prices of Hybrid Rhododendron \$3.50-\$7.50 each

RHODODENDRON.

Britannia X Fortunei hybrids. Strong bushy

flowering plants, these carry heads of large

medium pink flowers. \$4.00-\$5.00

Discolor (*Kirkii*). A lovely late blooming rho-

dodendron with flowers usually white but

sometimes pink, fine in woodland plantings.

\$4.00-\$5.00

Racemosus. An excellent compact dwarf va-

riety, flowers in rather loose clusters, fine

for edgings or the Rock Garden. We have

both pink and pure white forms. \$1.50-\$2.00

Smirnowi. A charming Chinese variety with bright rosy pink flowers, Tomentose foliage, very desirable. \$3.00-\$6.00

NATIVE RHODODENDRONS

Carolinianum. Bright pink flowers in May and June. \$2.00-\$3.00

Carolinianum Album. Pure white flowers.

\$2.00-\$3.00

Catawbiense. Large rosy purple flowers. \$1.50-\$3.00

Maximum. Delicate pink flowers in late May and early June. Extra strong. \$1.50-\$3.00-\$4.00

HARDY CONIFEROUS EVERGREENS

We carry a good selection of *Taxus*, *Juniperus*, *Chamaecyparis*, *Thujas*, *Tsugas*, *Pinus* and *Piceas*. Amongst interesting varieties carried are *Taxus media* *Hicksii*, *Taxus media* *Hatfieldi*, *Chamaecyparis obtusa* *nana*, *Chamaecyparis obtusa* *gracilis* and other varieties.

Specimen *Taxus Hicksii*. Of this splendid hardy yew we have a number of excellent specimens trained to single stems which are as near perfect as possible, these are from 5-7 feet high, \$10.00-\$20.00 each. An inspection of these is cordially invited.

FRUIT TREES

We carry in stock a selection of the best varieties of Apples, Pears, Plums, Cherries, Peaches, Crab Apples and Quinces. Varieties and prices on application.

The leading varieties of Grapes including Concord, Brighton, Niagara, Worden, Moores' Early, and others, 50 cents each.

BEDDING PLANTS

We will have a selection of the more popular varieties including Blue Salvias, Cannas, Petunias in several varieties, Ageratum, Phlox Drummondi, Asters, Stocks, Zinnias, Marigolds, Calendulas, Antirrhinums, Browallias, Heliotropes, Lantanas, Salpiglossis, Vincas, and other varieties.

Verbenas. We carry Mayflower, Beauty of Oxford and Lavender Gem, the three leading varieties. \$2.00 doz., \$15.00 per 100

Heavenly Blue Morning Glories. True early flowering variety in pots. 25 cents each, \$2.50 doz.

New Morning Glory "Scarlett O'Hara." Color rosy red, free flowering. 30 cents each, \$3.00 doz.

Coboea Scandens and Ipomoea Grandiflora (Moonflower.) These two rapid growing climbers. 25 cents each, \$2.50 per doz.

Dahlias. Dwarf bedding type, do not exceed 18 inches in height, very free bloomers.

20 cents each, \$2.00 per doz.

GENERAL LIST OF HARDY HERBACEOUS PERENNIALS

Except where otherwise quoted, prices of all hardy perennial plants are 25 cents each, \$2.50 per doz., and \$15.00 per 100. Six plants at dozen rate and 25 and 50 at 100 rate.

ACHILLEA.

millefolium roseum: (Pink yarrow.) Excellent perennial.

ptarmica Perry's White. Splendid double white, fine for cutting.

tomentosa. Dwarf, just hugging the ground, yellow flowers, 2-3 inches high.

ACONITUM. (Monkshood.)

autumnale. (Autumn Flowering Monkshood.)

Fischeri. (Azure Monksnood), late bloomer.

napellus. (Summer flowering Aconite.) Deep purple.

napellus bicolor. Bicolored Aconitum. 40 cents

napellus, Sparks variety. Grows 5-6 feet high,

is well branched and flowers are deep blue.

Wilsoni. Fine late variety, tall grower. 35 cents.

AETHIONEMA.

grandiflorum. Neat compact little plants with glaucous foliage and bright pink flowers.

Warley Rose. Compact habit, foliage glaucous foliage, the heads of bright pink flowers are strongly suggestive of *Daphne cneorum*. 50 cents.

AGROSTEMMA.

flos jovis. Downy foliage and brilliant pink Lychnis like flowers.

AJUGA.

genevensis. Fine for carpeting in either sun-shine or shade. Blue spikes of flower.

genevensis alba. Pure white variety.

genevensis rosea. Pleasing pink form.

genevensis variegata. Interesting white and green variegation in foliage.

ALSTROEMERIA.

Aurantiaca. (Peruvian Lily.) Roots are a mass of fleshy brittle tubers. Need covering 9 inches in any deep, warm and well drained soil, then allow to spread. These have proved perfectly hardy in New England and are superb for cutting. Color deep orange and lily like. 50 cents each, \$5.00 doz.

Ligtu angustifolia (New). The dominant color in this fine hybrid is warm pink, heads of flower as seen in England in the summer of 1938 were in many cases 18-24 inches across, a few were snow white, these attracted great attention at the big summer flower shows and have wonderful cut flower value owing to their long keeping qualities. Plants in pots. \$1.25 each.

ALYSSUM.

saxatile compactum. Bright golden yellow flowers.

saxatile sulphureum. Sulphur yellow flowers in early spring.

ANCHUSA.

Barrelieri. Of medium height, blooms earlier than *Italica* varieties.

Italica Dropmore var. Stout growers, brilliant shade of light gentian blue.

Italica Opal var. Flowers a lovely shade of sky blue.

myosotidiflora. Charming Russian species, pale blue forget-me-not like flowers in early spring.

ANDROSACE.

lanuginosa. Trailing stems, silvery foliage and umbels of rose colored flowers.

ANEMONE.

japonica alba. Beautiful pure white flowers in September and October.

japonica Prince Henry. Double reddish flowers, dwarfer than others of *japonica* type.

japonica Alice. Large semi-double pink flowers.

September Charm. Flowers earlier than *japonica* and is dwarfer in habit, pleasing pink color.

Prices of Japanese Anemones, extra strong plants in pots, 30 cents each, \$3.00 doz., \$20.00 per 100.

pulsatilla. The well known "Pasque flower," violet flowers in early spring.

pulsatilla alba. Pure white form of the foregoing.

sylvestris. Fine border species with satiny white fragrant flowers.

ANTHEMIS.

R. montana. Lovely dwarf species producing snow white flowers.

tinctoria Kelwayi. Large golden yellow flowers freely produced.

tinctoria Perry's variety. Larger and superior flowers to the type.

ANTHERICUM.

iliastrum. (St. Brunos Lily.) 30 cents.

AQUILEGIA.

R. caerulea. (Rocky Mountain Blue Columbine.)

R. canadensis. (Canadian Columbine.) Fine for naturalizing.

chrysantha. (Yellow Long Spurred Columbine.)

chrysantha. Blackmore & Langdon's choice hybrids.

chrysantha. Mrs. Scott Elliott's hybrids.

R. flabellata nana alba. Pretty dwarf variety well adapted for rock gardens. 30 cents each.

ARABIS. (Rock Cress.)

R. albida. Single white Rock Cress, flowers very early.

R. albida flore-pleno. Double white, much superior to the single form. 35 cents each, \$4.00 doz.

R. mollis. Compact grower, pure white spikes carried well above the foliage.

snow cap. A very compact form of *alpina*, fine novelty. 35 cents.

ARENARIA (Sandwort.)

R. caespitosa. (Mossy Sandwort.) Close mossy like growth, small greenish white flowers.

R. montana. (Mountain Sandwort.) Lovely large pure white flowers.

R. repens. (Creeping Sandwort.) Fine rock plant, very prostrate.

ARMERIA.

R. alpina. Very dwarf and compact rock garden variety. 30 cents.

R. Bee's ruby. A deeply colored variety, dwarf and fine for rock garden. 30 cents.

- R. *caespitosa*. Bright close pink heads of flowers abundantly produced. 50 cents.
- R. *laucheana*. Rich rosy red, height 6 inches.
- R. *maritima*. Pale pink, very compact, splendid for edgings.
- maritima alba*. Pure white, very compact habit.

ARTEMISIA.

lactiflora. (Chinese Mugwort.) Creamy white fragrant flowers in late summer, excellent for cutting.

Silver King. Very attractive silvery foliage, a valuable variety.

ASPHODELUS.

luteus. (Yellow asphodel or Jacobs rod), a fine perennial.

ASCLEPIAS.

tuberosa. (Butterflyweed.) Brilliant orange flowers, very showy.

ASTERS

The hardy asters are rapidly forging ahead in importance and no garden of hardy plants today is at all complete without them, while a few varieties bloom in May and June the great bulk of the family are late summer or fall bloomers. In the past few years there have been some splendid varieties produced abroad, the bulk in England but some on the European continent, very few have been raised in America although European hybridizers had to depend on our native varieties to produce the many hybrids sent to us for many years. The new dwarf asters are indispensable in gardens, they are very compact and floriferous. All varieties are absolutely hardy and spring planting is much the best for all of them. Some striking new varieties are contained in the list following.

DWARF ASTERS

NEW ENGLISH TYPE

This very valuable new type was evolved by a noted gardener who had charge of the war gardens where several hundred thousand British soldiers who fell during the world war are buried in France.

- R. **LADY HENRY MADDOCKS**. Clear pale pink. 12 inches.
- R. **LILAC TIME**. Of a lovely lilac color, one of the best. 12 inches.
- R. **MARJORIE**. Deep apple blossom pink. Late September. 12 inches.
- R. **NANCY**. Pale flesh pink. Late September. 12 inches.
- R. **RONALD**. Lilac pink in mid-September. 9 inches.
- R. **SNOWSPRITE**. Semi-double white in early September. 9 inches.
- R. **VICTOR**. Clear lavender blue, early September, 9 inches.

Price of above dwarf asters, 25 cents each, 9 varieties for \$2.00.

HARDY ASTERS**FALL FLOWERING SECTION****(Michaelmas Daisies)**

Acris Nanus. Lavender mauve flowers which are rather small in great profusion, 9-12 inches.

Alderman Vokes. Extra fine medium blue, large flowers, 2-2½ feet.

Beechwood Challenger. (New.) The finest of the red asters to date, grows 4-5 feet high with fine heads of bloom in late September. 35 cents each, \$4.00 doz.

Burbanks Charming. A grand very late variety, origin doubtful, blooms in mid-October and onwards. Grows 4-5 feet high but improved by pinching, loose feathery heads of very pale rose flowers.

Charles Wilson. The darkest colored variety to date. Novi-Belgii section, height 3 feet, color rosy red with yellow centre.

Feltham Blue. Novi-Belgii section. Height 4 feet, pure blue September bloomer.

Frikarti. var. Wonder of Stafa. Of Amellus section, rather slow of increase, extra large blue flowers in August and September, height 2-2½ feet, one of the indispensables. 50 cents each.

Gayborder Charm. Of Novi-Belgii type, height 2½ feet, in good flower October 1, color deep rose. A very fine variety.

Harringtons' Pink. (New.) Of Novae-Angliae section. Here we have the first really pink hardy aster, planted late last season plants averaged 2½-3 feet high and earlier planting will ensure bushy plants 4-5 feet high, flowers are large and are in season Sept. 15 and onwards. This puts all other so-called pinks utterly in the shade and is easily the most outstanding hardy aster yet seen. Award of Merit Massachusetts Horticultural Society, October 5, 1937. Early application is suggested as the demand this season will far exceed the supply. 50 cents each, \$5.00 doz.

Hybridus Luteus. (See Solidaster.)

King George. Of amellus section. This is a very fine variety with large trusses of bluish-violet flowers 2-2½ inches across, petals are wide, an early bloomer coming in advance of Frikarti.

Mount Ranier. Beautiful snowy white. 35 cents.

Mrs. George Munro. A fine pure white Novi-Belgii variety, semi-double and very free, large blooms. Height 2-3 feet. 35 cents each.

Mrs. Davis Evans. Novi-Belgii variety. A splendid clear lavender, height 3 feet. Flowers are 1½ inches in diameter, splendid erect habit. At its best in early October.

Mount Everest. Easily the finest white aster, 4-5 feet high occasionally more, immense pyramidal heads of flowers. 35 cents each.

Pink Progressive. Of Novi-Belgii section. One good feature is that flowers seem to virtually all open at the same time, 3-4 feet, color medium blue.

Ptarmacoides. A native variety often known as the "baby's breath aster," small white flowers which suggest gypsophila, fine for cutting.

Red Cloud. Outstanding pink. 35 cents each.

Red Rover. A fine deep rosy red with golden centre. Novi-Belgii type, fine habit, 3 feet.

Skylands Queen. Novi-Belgii variety. An American introduction which we were the first to offer. Height 3-4 feet, large lavender flowers and still the best of its color.

VARIOUS OTHER ASTERS

R. *alpinus*. Lilac purple flowers 9-12 inches high in late May and June. Large flowers.

R. var. *Sub-Coeruleus*. Brighter blue flowers than the type.

R. var. *Star of Wartburg*. A fine novelty, much superior to type which it will displace, 9-12 inches high, late May and early June, excellent for Rock Garden. 35 cents each.

Tataricus. The tallest and latest flowering of all asters, 6-8 feet, very large leaves and sturdy stems, really an early November variety.

R. *Mauve Cushion*. Silvery mauve, not over 9 inches high. Flowering season late October.

R. *Himalaicus*. A very interesting and compact habited species, height 6 inches, large medium blue flowers, lovely Rock Garden variety.

Prices of Hardy Asters except novelties 25 cents each, \$2.50 per doz., \$15.00 per 100. Collection of 12 varieties to include several novelties, \$3.00.

ASTILBE. (Formerly Spiraea.)

Elegans. Dark rosy pink, splendid variety. 40 cents.

Gladstone. Large pure white pyramidal heads. 35 cents.

Gloria. Very rich deep pink. 35 cents.

Granat. Very rich deep red, tall grower. 35 cents.

Hyacinth. Pure lavender pink. 35 cents.

Kriemhilde. Feathery spikes of salmon pink. 35 cents.

Juno. A fine violet rose. 35 cents.

Market Glory. Splendid new red variety, tall spikes. 35 cents.

Moerheimi. Extra robust pure white variety. 35 cents.

Philadelphia. Clear lavender rose. 35 cents.

Rose Pearl. Lovely shell pink. 35 cents.

Vesta. Lilac rose of moderate height. 35 cents.

White Plume. Superb pure white, tall and stately. 35 cents.

All varieties of Astilbes priced 35 cents are \$3.50 per doz.

These astilbes do especially well in moist ground where they will attain a much greater height and hold their flowers longer than in dry soil.

R. *AUBRIETIA deltoides*. (Common Aubrieta.)

R. *leichtlini*. (Leichtlin's Aubrieta.)

Lovely mauve to purple flowers.

BAPTISIA. (False Indigo.)

australis. Deeply cut foliage and dark blue flowers in June.

BELEM CANDA.

sinensis (Blackberry Lily.) Orange and black flowers followed by seeds which closely resemble blackberries.

BELLIS. (English Daisy.)

R. *perennis flore-pleno*. Red, pink and pure white.

BOLTONIA.

asteroides. (False White Camomile.) Pure White.

latisquama. (Violet Camomile.) Lovely violet flowers.

CAMPANULA.

R. *Billardi Miranda*. Delightful blue flowers suggestive of *pusilla* but a much better grower than that variety. 35 cents.

R. *carpatica caerulea.* (Blue Carpathian Bell-flower.)

R. *carpatica alba.* (White Carpathian Bellflower.)

R. *carpatica*, Ditton Blue. An especially lovely blue variety.

R. *carpatica*, Dwarf hybrids. These have extra large flowers and attain only half the height of the ordinary carpaticas, flowers also are different in form.

R. *garganica.* Lovely rich blue trailing variety. Superb rock garden plant. 50 cents.

glomerata dahurica. (Danesblood.) Deep violet blue.

lactiflora. Superb pale blue variety, grows 3-4 feet high, flowering in July.

medium. (Canterbury Bell.) Single pink, white, mauve and deep blue. Strong field grown plants.

persicifolia. (Peach leaved Bellflower.) Pretty blue.

persicifolia alba. Fine pure white form.

persicifolia Telham Beauty. Extra large flowers of a lovely China blue shade.

R. *Poscharskyana.* (New.) A new species from Serbia, long sprays of open lavender blue flowers, 50 cents.

R. *rotundifolia* (Harebell.) Often called the "Blue Bells of Scotland."

R. *rotundifolia.* Giant hybrids. These contain very fine varieties with much larger flowers than the type.

CASSIA. (Indian Senna.)

marilandica. Handsome pinnate foliage and striking racemes of yellow flowers in July.

CENTRANTHUS. (Jupiter's Bear.)

ruber (Red Valerian or "Pretty Betsy.") Red fragrant flowers.

CENTAUREA.

montana. Color blue often called the "perennial Cornflower."

montana alba. A pure white form of the foregoing.

CERASTIUM. (Snow in Summer.)

tomentosum. Grey foliage, pure white flowers, fine rock plant.

CERATOSTIGMA. (Hardy Leadwort.)

plumbaginoides. (Formerly *Plumbago larpetae.*) Deep blue flowers in late summer, give well drained position and good winter protection.

CHEIRANTHUS.

allioni. (Siberian Wallflower.) Rich orange fragrant flowers.

Golden Bedder. Habit similar to *allioni* but the color is golden yellow.

CHELONE. (Turtle Head.)

lyoni. Pink Turtle Head, especially good in moist ground.

CHRYSANTHEMUM.

maximum Market Favorite. Popular market variety in Europe.

maximum The Speaker. Flowers often 6 inches across, very fine.

maximum Rentpayer. The finest of all the Shasta daisies.

Burbanks frilled. Finely frilled petals, semi-double, a fine acquisition. 50 cents.

Chiffon. A very pleasing variety with rather loose and graceful flowers.

ESTHER READ. (New.)

Although raised in England several years ago this splendid shasta daisy is rather scarce here yet. The flowers are borne on stiff stems while the flowers are snow white and fully double showing no centre at all. It is immensely popular in Europe as a market cut flower and has an enormous sale for this purpose. Succeeds better with some shade than in full sun. Height 18 inches, a long season bloomer. 50 cents each, \$5.00 per doz.

CHRYSANTHEMUM

FALL FLOWERING SECTION, NOVELTIES

The following four varieties are unique and distinct and can be heartily recommended.

Acacia. A profusion of small very fragrant yellow flowers are produced in late September. Flowers are one inch in diameter and remain fresh a long time, they are semi-double and exceptionally brilliant.

Autumn Lights. An Arcticum hybrid with exceptional hardiness, produces masses of coppery bronze semi-double flowers two or more inches across, a gleaming orange tone illuminates the bronze. Height 18 inches, in season late September.

Gleam O' Gold. Very aptly named this splendid primrose yellow pompon fairly gleams in the autumn sunlight. A sturdy grower and carries quantities of really substantial yellow flowers 3 inches or more across. In season October 1.

Goblin. The flowers perfectly formed in this variety are warm bronze in color shading to sparkling gold in the open flowers, which average 2 inches in diameter. A distinct and lovely addition. Height 2 feet, in season from October 10 onwards.

Prices of the above four Novelty Chrysanthemums, 50 cents each, \$5.00 doz.

CHRYSANTHEMUMS

HARDY FALL FLOWERING

This season we have discarded a number of varieties and are listing much superior new sorts in their stead. These may be successfully planted after May 1, but we do not advise fall planting.

Aglow. Fully double flowers of deep bright orange, very brilliant.

Amelia. This is not a new variety but has been sold under several other names. Dwarf in habit the plants are covered with lovely double pink flowers which are produced well in advance of frost.

Amelia Bronze Cushion. A pleasing bronze.

Amelia King Cushion. Deep bronzy salmon sport from Amelia, same habit.

Amelia. Queen Cushion. A pure white variety.

Astrid. A hybrid with Arcticum blood, distant foliage, pleasing single pink flower.

Early Bronze. Flowers which are bronzy yellow are not large but are very abundantly produced from late August onwards. Very much the best of the early blooming varieties, the color is bronzy yellow.

Jean Cumming. Fully double pure white of large size.

Jean Treadway. A lovely pink, easily the best of its shade, fully double and in season after September 25, flowers are large.

Judith Anderson. A striking new garden pompon. Height 18 inches with a spread of 24-30 inches. An early bloomer coming in season October 5. Remarkably free bloomer, individual flowers are well rounded and 1½ inches across, the color is clear buttercup yellow, a fine introduction for northern gardens.

Nuggets. Small golden yellow pompon.

R. Marion Hatton. Splendid medium sized yellow aster type of pompon.

Ruth Cumming. Deep terracotta, free, vigorous and flowers are large.

CHRYSANTHEMUM KOREANUM HYBRIDS

The introduction of the Koreanum hybrid Chrysanthemums gave us the finest addition in hardy garden plants we have had in some years. Originally all single we now have a number of excellent doubles which withstand inclement weather conditions much better than the singles and growers would be well advised to concentrate more on these in the future. The fall of 1939 was about the worst ever experienced with hardy chrysanthemums of all kinds, the very hot summer and high night temperatures prevented bud formation until much later than usual and with sharp frosts coming earlier than normal few growers had many presentable flowers. These abnormal climatic conditions are unlikely to come except at long intervals. These chrysanthemums are better pinched back at least twice after planting out or they will grow too tall. Their flowers unfortunately are less weather and frost proof than those of the hardy Asters but they come in so many lovely colors and so late that no other flowers at that season are as much appreciated.

The following selection has been made from a much larger number and embraces what we think are really fine varieties in both singles and doubles.

Burgundy. Rich cerise crimson, deeper in centre.

Height 2½ feet. Season October 5. 35 cents.

Caliph. Rich ox-blood, red, velvety sheen. Height 2½ feet, in season October 10 and later.

Clio. Duplex flowers of deep carmine rose, rather dwarf habit.

Diana. Triple ray flowers of rosy pink, suffused lilac rose and salmon.

Ember. Double coral and orange, in season October 15. Height 2½ feet.

Fairy. Delicate single rose with white halo.

King Midas. Double soft yellow with light bronze shading.

Nancy Copeland. Pleasing spectrum red, single flowers.

Lavender Lady. A lovely true lavender, fully double 3 inch flowers. Height 2½ feet, in season October 8. 35 cents.

Pale Moon. Double sulphur yellow 2 inches across. Height 2 feet, in season October 5. 35 cents.

Roberta Copeland. Tomato red turning to rose and salmon gold. Height 18 inches, in season after September 15. 35 cents.

Pygmy Gold. A real dwarf, small golden yellow flowers, very pretty.

Orange Wonder. Single deep coppery orange, very free.

Rose Glow. Semi-double opalescent rose 2 inches across. Height 2 feet. Season October 5. 35 cents.

Saladin. Coral red. Height 2½ feet, in season October 10.

Sappho. Compact and rather dwarf single yellow.

Sequoia. Mellow amber, good sized flowers.

Silver Tips. Double carmine, tips and reverse of petals silvery white.

Symphony. Large double mauve rose, overcast coppery rose.

Thalia. Charming duplex orange, with us the earliest Koreanum.

The Moor. Double port wine flowers of large size in early October.

Except where otherwise priced, all Koreanum Chrysanthemums are 25 cents each, \$2.50 per doz.

MISCELLANEOUS CHRYSANTHEMUMS

Arcticum. Charming pure white variety, blooming earlier than Koreanum and is more compact.

Koreanum. Extremely hardy, late bloomer and a good garden plant.

Morifolium. Medium sized flowers of a lovely pink color.

Rubellum. (Formerly Chrysoboltonia pulcherrima). An excellent hardy perennial. Height 2½ feet, in season during September, very pleasing light pink flowers.

Rubellum var. **Clara Curtis** (New.) An improvement on the type, more compact habit and charming lilac pink flowers. 50 cents.

CLEMATIS.

davidiana. (Fragrant Blue Clematis.) Pale blue flowers, bell-shaped bright green foliage, some fragrance. 50 cents each, \$5.00 doz.

recta. (Shrubbery Clematis.) Attains a height of 3-5 feet. Large heads of pure white fragrant flowers, excellent for cutting. 30 cents each, \$3.00 doz.

CONVALLARIA. (Lily of the Valley.)

Fortins Giant. Extra large bells, far the best variety for outdoor culture. Strong pips, \$1.00 doz., \$2.00 per bundle of 25, \$7.50 per 100.

Majalis rosea. (Pink Lily of the Valley.) Interesting and scarce. 50 cents each.

COREOPSIS.

lanceolata grandiflora. Golden yellow flowers, continuous bloomer.

lanceolata grandiflora. Var. **Mayfield Giant.**

Very large flowered form.

CORYDALIS.

Bulbosa. Interesting and pretty plant with rather large purplish flowers in spring, fine for Rock Garden, 6-8 inches high, bulbous.

CRUCIANELLA.

R. stylosa. (Common Crosswort.) A pretty trailer with lovely pink flowers.

CYCLAMEN, HARDY VARIETIES

We are pleased to be able to offer a fine stock of strong flowering bulbs of several varieties of these delightful little bulbous plants, fine for the rock gar-

den and under trees, where they get a moderate amount of shade and have good drainage.

COUM.

This variety is native to Europe and Asia Minor, it is an early spring bloomer, flowers are red but without fragrance. \$1.00 each, \$10.00 doz.

COUM ALBUM.

A very pretty and rather scarce pure white form. \$1.00 each, \$10.00 doz.

EUROPAEUM ROSEUM.

A native of Central Europe where it is quite widely dispersed, the flowers are very fragrant and are produced in late summer and fall. 75 cents each, \$8.00 doz.

NEAPOLITANUM ALBUM.

The Neapolitanums produce quite large bulbs and flower in early fall abundantly, white with a bright violet purple spot at the base. 75 cents each, \$8.00 per doz.

NEAPOLITANUM ROSEUM.

This colored form like the white one has very handsome leaves which appear before the flowers pass. Flowers are deep rose. 50 cents each, \$5.00 doz.

CYPRIPEDIUM.

acaule. Moccasin flower. 25-50 cents each.

parviflorum. Small yellow ladyslipper. 25-50 cents each.

pubescens. Large golden yellow ladyslipper. \$.25-\$.50-\$1.00 each.

spectabile. Royal ladyslipper. \$.25-\$.50-\$1.00 each.

arietinum. Rams head ladyslipper, choice and rare. 75 cents each.

For the higher prices, clumps are large with many pips.

DELPHINIUM. (Larkspur.)

belladonna. Lovely pale blue, delightful with *Lilium candidum*.

belladonna var. Cliveden Beauty. Beautiful Cambridge blue, taller than type.

belladonna var. Fanny Stormonth. Brilliant light blue, extra fine.

bellamsum. Dark blue, hybrid between formosum and belladonna.

blue butterfly improved. Beautiful deep blue.

Blackmore & Langdon's Gold Medal hybrids. The finest hybrids in the World. 50 cents each, \$6.00 doz., \$45.00 per 100.

Double pure white, 50 cents.

Japanese Iris General List

affection. Pure white, 6 petals.

blue bird. Large 3 petalled deep blue.

blue danube. Deep indigo blue, yellow centre, 6 petals.

eclipse. Deep purple, overlaid with red, 6 petals.

blue flag. Lovely blue, 6 petals.

gold bound. Far the most popular of all pure white 6 petalled varieties.

lavender giant. Beautiful rich lavender.

pink beauty. The nearest to pink we have seen in this section, a very lovely 6 petalled variety.

reine de bulgarie. Fine 3 petalled medium blue.

uchi. A very beautiful 6 petalled soft blue with golden throat.

venus. Extra large 3 petalled pure white.

zama forest. Striking 3 petalled light blue.

We also have nice batches of Betty Holmes, pure white, Reine de Bulgarie, Mandarin, Mrs. C. C. Merrill, Blue Perfection, Pink Perfection and other varieties.

Perfection and several other varieties.

Prices of Japanese iris, strong plants, 50 cents each, \$4.00 per doz.

Fine mixed varieties both 3 and 6 petalled, 25 cents each, \$2.50 per doz.

IRIS INTERREGNA

Interesting hybrids the result of crossing *I. Germanica* with *I. pumila*. They bloom well in advance of the German iris attaining a height of 18 inches.

fritjof

Standards light lavender blue, falls satiny violet.

helge

Standards creamy yellow, deeper falls veined yellow.

spectabilis

Rich very free flowering violet purple.

Prices of Interregna Iris 30 cents each, \$3.00 per doz.

IRIS, MISCELLANEOUS VARIETIES

Chrysographes.

Flowers of this striking variety are of a richer shade of velvety violet purple than any other species, height 24 inches. 50 cents. *dichotoma*. (Vesper Iris.) An August bloomer, flowers do not open until mid-afternoon, color medium blue. 35 cents.

Ochroleuca.

Tall growing variety flowering in late June. We can offer this in four distinct colors, pure white, canary yellow, deep yellow and blue. 50 cents each, set of 4 colors, \$1.50.

R. gracilipes. A very dainty Japanese variety, cushions of soft green foliage from which rose slender spikes of lilac blue flowers with golden crest. 50 cents.

R. innominata. A lovely species from the mountains of southern Oregon, slender grass like foliage with flowers of golden yellow on 6-8 inch stems. 75 cents.

R. innominata, veined form. The veining of the flowers make this quite distinct from the type, a rare and charming variety. 75 cents.

laevigata. Very vigorous growing 5-6 feet high and carrying a great profusion of large flowers varying from reddish purple to pure purple in color.

longipetala var. Mrs. A. W. Tait. A grand variety, height 3-4 feet, color medium blue, several flowers open at one time. 50 cents each.

<i>rosy dawn</i> . Large snow white flower, tinged blush early, resembles a great white water lily	1.50
<i>the bride</i> . Lovely pure white	1.50
<i>whitleyi major</i> . Blush white, fine variety	1.00
<i>Tomata-Baku</i> . Splendid deep pink	1.00

PAPAVER. (Poppy.)

R. *alpinum*. (Alpine Poppy.) Very dwarf otherwise similar to the well known "Iceland Poppy."

R. *atlanticum*. Rather more robust than *nudicaule*. Very useful.

R. *nudicaule*. The well known "Iceland Poppy," very free, fine for cutting. Orange, yellow or pure white colors.

R. *nudicaule* Coonara pinks. These come in very pleasing pink shades.

R. *nudicaule* Tangerine. Fiery orange, extra large, a grand novelty.

R. *nudicaule* Thibet. New brilliant orange color, very floriferous.
 R. *nudicaule* California. Very rich orange.
nudicaule. Fakenham hybrids. A superb strain, extra large flowers.
nudicaule, Gaartref strain. Flowers are large and contain some unique colors.

ORIENTALE. (Oriental Poppy.)

The following named varieties from pots can be supplied, all have been increased from root cuttings. They embrace the most pleasing colors introduced to date.

Beauty of Livermore. Deep blood crimson.
 Delicata, lovely soft pink.
 Jeannie Mawson. Lovely apricot pink.
 Mrs. Perry. Extra fine apricot with orange shading.
 Orange Beauty. Rich orange red.
 Parkmanni. A grand rich striking crimson.
 Olympia. The first double variety, rich scarlet.
 Perrys Pink. A lively salmon pink.
 Perrys White. Large pure white with black base.
 Princess Ena. A delicate blush salmon rose.
 Sass Pink. Superb salmon pink, 50 cents.
 Wonderland. Old rose.
 Wurtembergia. Rich orange red, quite striking.

These poppies are strong plants in pots, far better than field plants, we have the latter if preferred. Price 30 cents each, except Sass Pink, \$3.00 per doz.

PENTSTEMON.

barbatus Pink Beauty. Lovely clear shell pink, height 24 inches.
barbatus Torreyi. Bright red flowers from July onwards.
coeruleus. Lovely variety, mauve flowers changing to blue.
digitalis. White foxglove like spikes very freely produced, 24 inches.
 R. *glaber*. Purple blue, very dwarf habit.
 R. *glaber*, hybrids. Varying pleasing colors.
grandiflorus. Striking glaucous bluish foliage and large lavender flowers.
ovatus. Rich purple blue, robust grower, 36 inches.
pubescens. Violet flowers shading to flesh pink.

PHLOX. Early Dwarf Varieties.

R. *amaena*. (American phlox.) Lavender pink flowers in May.
 R. *canadensis*. Native variety, rich purple flowers.
divaricata. Lovely pale blue native phlox.
 R. *divaricata laphami*. A specially lovely shade of blue.
 R. *divaricata alba*. Good pure white form.
 R. *subulata alba*. Pure white form of the Moss pink.
 R. *subulata* Blue Hill. The finest blue variety, flowers are deep in color.
subulata Camlaiensis. Beautiful and very compact salmon pink variety which blooms heavily in spring and quite freely in fall. Of English origin. 35 cents.
 R. *subulata rosea*. A rosy pink form.
 R. *subulata Vivid*. Splendid salmon pink.
subulata Brilliant (atro-purpurea). Brilliant crimson red, the richest colored of this section.

PHLOX, Upright Paniced Section.

beacon. Bright cherry red, very effective shade.
 blue hill. Rich violet blue.

b. compte. Fine satiny purple variety, tall and very late bloomer.

caroline vandenburg. Lavender blue, the best of this shade to date. 30 cents each, \$3.00 doz.

coquelicot. Brilliant orange scarlet.

daily sketch. (New.) A wonderful new variety, robust in habit and immense heads of bright, rosy pink flowers with a deeper eye, the flowers exceed in size those of any other variety in commerce today. 50 cents each, \$5.00 per doz.

elizabeth campbell. Salmon pink with deeper eye. Fine color but this variety lacks constitution. 30 cents each, \$3.00 doz.

enchantress. Splendid bright salmon, vigorous habit.

f. g. von lassburg. Splendid pure white, tall.

george stipp. (New.) Deep glowing salmon with lighter eye, holds its color, very robust, 2½-3 feet. 35 cents.

jules sandeau. Large very pure pink, medium height.

Lillian. Salmon pink, a grand variety.

Mia ruys. Very fine dwarf white.

miss lingard. Undoubtedly the finest of all panicled phloxes. Rich shiny foliage, the earliest variety to flower and persists until late October. White with a delicate lilac eye.

mrs. e. pritchard. Extra fine clear pink.

mrs. milly van hoboken. Superb new pink without eye, very large flowers. I consider this much superior to Elizabeth Campbell.

mrs. jenkins. Large pure white.

mrs. scholton. Deep salmon pink in immense spikes.

P. D. Williams. Excellent shell pink.

progress. Much the finest non-fading blue yet introduced. 50 cents each, \$5.00 doz.

rijnstrom. Bright rosy pink, extra large flowers, very vigorous.

rosalinda. An amaranth pink Miss Lingard, flowers very early. 50 cents.

saladin. Brilliant orange scarlet, holds its color splendidly.

salmon glow. (New.) A cross between Jules Sandeau and Elizabeth Campbell, a lively pink color with salmon shading. 35 cents.

thor. Deep salmon pink, aniline red eye.

victor heurlin. A lovely salmon pink variety.

PHYSOSTEGIA. (False Dragonhead.)

virginiana. Upright spikes of light rosy lilac flowers.

virginiana alba. A desirable pure white form.

virginiana vivid. Dwarf pink variety, flowers much later than the tall types, an especially useful perennial.

PHYTEUMA. (Horned campion.)

orbiculare. A good perennial 12-18 inches high, flowers purple blue.

PLATYCODON. (Balloonflower.)

grandiflora. Large violet blue, cup shaped flowers.

grandiflora alba. Fine pure white form.

PLUMBAGO. (See Ceratostigma.)

POLEMONIUM. (Jacobs Ladder.)

caeruleum. Erect spikes of deep blue flowers. Fine perennial.

reptans. Dwarf form, fine rock garden plant.

POTENTILLA.

miss willmott. Upright habit, magenta rose flowers.

argyrophylla. Silvery foliage and amber colored flowers.

R. tridentata. Rich shiny divided leaves, pure white flowers, splendid alpine.

warrenii. Large yellow flowers, height 24 inches. Splendid new variety.

PRIMULA. (Primrose.)

R. acaulis. (English primrose.) Soft yellow, an old favorite.

R. auricula. Alpine strain, fine range of colors, this proves very hardy in New England. 30 cents.

beesiana. Whorls of rosy purple flowers. 30 cents.

bulleyana. Large apricot yellow whorls. 30 cents.

R. cortusoides. A charming Siberian variety with light loose heads of rosy pink flowers. 50 cents.

denticulata var. Cashmeriana. Very early bloomer. Neat flower heads of bright lilac rose. 30 cents.

japonica. Rich crimson, occasionally rose or white, long spikes. 30 cents.

R. juliae. A lovely species with large rosy purple erect flowers. 50 cents.

Mrs. F. Neave. A much improved form of Wanda. 50 cents.

R. queen of heaven. A truly beautiful medium blue. 50 cents.

R. polyanthus. Blue shades. 35 cents.

polyanthus colossus. Immense flowers, mainly yellow. 50 cents.

R. polyanthus. Red shades.

R. polyanthus. Golden yellow.

polyanthus. Pure white.

red Hugh. An intense fiery red. 30 cents.

Sieboldi. Lovely late flowering pink. 50 cents.

Sieboldi alba. Charming pure white. 50 cents.

R. wanda. A lovely scarlet crimson, dependable and free. 50 cents.

Additional to the foregoing we have a number of other varieties in rather limited numbers. All primulas succeed best in partial shade and are benefited by mulching and also watering in hot dry weather.

PRUNELLA. (Selfheal.)

webbiana. Round heads of purple flowers all summer, succeeds well in shade.

PULMONARIA.

angustifolia. A lovely spring flower resembling *Mertensia virginica*. 35 cents, \$3.50 per doz.

maculata. Beautiful silvery spotted leaves and pink flowers, very attractive without flowers. 50 cents, \$5.00 per doz.

PYRETHRUM. (Persian daisy.)

roseum, single in white, pink and red shades separately.

roseum, choice mixed all colors.

roseum, double, choice mixed.

uliginosum. (Giant oxeye daisy.) Grand border plant, flowers in late summer.

Miami Queen. Splendid double pink variety. 50 cents.

Buckeye. Another fine double rosy red. 50 cents.

RUDBECKIA.

purpurea. Purple cone flower, long season bloomer. (See *Echinaeae*.)

Autumn Sun. Tall grower, beautiful masses of single golden flowers for many weeks, a striking variety.

SALVIA. (Sage.)

azurea grandiflora. Beautiful deep blue flowers in long racemes, flowers in late September. One of our best blue perennials.

pratensis tenorii. Rather dwarf in habit, a smother of blue flowers in June.

pitcheri. Grows 3-4 feet high, rich gentian blue flowers in early fall, greatly admired. 35 cents.

sclarea. Blue and white flowers, large woolly foliage.

SANGUINARIA.

R. canadensis. (Bloodroot.) Pure white flowers in very early spring. Prefers shade and moisture.

canadensis flore-pleno. A lovely double form which is very rare. We have a nice stock of this beautiful hardy plant \$1.00 each, \$10.00 per doz.

R. SAPONARIA.

ocymoides. (Rock Soapwort.) Rosy pink, fine trailing rock plant.

SAXIFRAGA. (Saxifrage.)

R. apiculata. Pale yellow flowers in very early spring.

R. cordifolia. Broad dark green foliage, highly colored during winter, robust spikes of pink flowers in early spring.

cotyledon norvegica. Superb long pyramidal spikes. 50 cents.

R. crustata. Of Aizoon section, neat and an easy grower.

R. ferdinand coburgi. Makes a very neat cushion, soft yellow flowers. 35 cents.

R. hostii. This encrusted variety has white flowers carried on red stems.

R. primuloides. Small pink flowers and green foliage.

R. umbrosa. The very popular "London Pride." Attractive foliage and spikes of white flowers.

While the tufted green leaved section like full light, about all other varieties will stand our hot summers better in half shade. The saxifragas are a very attractive class of Rock Garden plants rapidly growing in favor.

Prices of Saxifragas unless otherwise stated 30 cents each, \$3.00 doz.

SCABIOSA.

caucasica. Beautiful rich blue, splendid for cutting. 30 cents each, \$3.00 doz.

caucasica. Houses choicest hybrids. Beautiful shades of blue, magnificent perennials. 40 cents each, \$4.00 doz.

caucasica, perfecta alba. Superb snow white variety. 50 cents.

goldingensis. A lovely form of *caucasica*, rich lavender blue flowers on long stems, 30 cents each, \$3.00 doz.

SEDUM. (Stonecrop.)

R. acre. The pretty little "gold dust" of old walls and roofs.

R. aizoon. Very neat rock plant.

R. album. Tufted evergreen habit, white flowers.

R. anglicum. Very neat compact variety with white flowers.

R. ewersii. Rose colored flowers, very pretty rock species.

R. *hispanicum*. Sweetly pretty, small growths, pink flowers.

R. *kamschaticum*. Orange stonecrop.

R. *lydium*. Neat and interesting, glaucous foliage.

R. *obtusatum*. Bronzy foliage and yellow flowers.

R. *oppositifolium*. White stonecrop.

R. *reflexum*. Yellow flowered species.

R. *sexangulare*. Dark green foliage, yellow flowers.

R. *sieboldii*. Lovely late flowering variety from Japan, bright pink flowers.

spectabile. Of erect habit, 18 inches in height, large heads of showy rose colored flowers.

spectabile brilliantissima. Extremely brilliant variety, has received many high awards.

R. *spurium coccineum*. Rosy crimson flowers.

R. *stoloniferum*. Purplish pink flowers.

Sedums are good subjects for the drier locations in the rock garden also in walls, they withstand long periods of drought with impunity, all prefer sunshine. An absurdly long list of varieties is often seen, distinctions are so trifling that even experts can hardly find them.

SEMPERVIVUM. (Houseleek.)

R. *arachnoideum*. Spider web houseleek, very interesting plant.

R. *arachnoideum hastipetalum*. Very small form of the spider-web houseleek.

R. *arenarium*. Small green rosettes in great numbers.

R. *atro-violaceum*. Richly colored variety.

R. *doellianum*. Small hairy rosettes of light green.

R. *fimbriatum*. The fimbriated houseleek.

R. *fauconetti*. Bronzy colored, attractive rosettes.

R. *funckii*. The green rosettes are tipped brown.

R. *globiferum*. Flattened rosettes of grey green.

R. *lowns no. 60*. An unusually distinct variety. 35 cents.

R. *pseudo-arachnoideum*. Very interesting form. 50 cents.

R. *rubicundum*. Large violet tinged rosettes, very striking. 50 cents.

R. *schotti*. Rosettes 2-3 inches across, green tipped brown, is also known as *S. glaucum*.

R. *soboliferum*. "Hen and Chickens." Lusty grower.

R. *tectorum*. Roof houseleek, the best known variety.

R. *tectorum violaceum*. Rich violet coloring. The sempervivums are splendid for hot, dry sunny locations where soils are light.

SIDALCEA.

hybrida. Splendid perennials with upright spikes of flowers reaching a height of 4 feet, varying colors.

SILENE. (Catchfly.)

R. *alpestris*. White flowers, an elegant dwarf variety. 50 cents each.

R. *maritima*. See pink. Pretty trailing plant with white flowers.

R. *schafta*. Rosy purple, trailing habit, good rock plant.

R. *sylvestris*. Excellent rock garden variety.

SOLIDASTER.

luteus. Formerly known as *Aster hybridus luteus*, a charming plant with rather soft yellow flowers carried in large heads, height 15-18 inches.

STACHYS. (Betony.)

R. *lanata.* White woolly leaved plant fine for rockery or edgings.

STOKESIA. (Giant cornflower.)

cyanea. Large blue flower of aster like form, late bloomer.

SWEET WILLIAM. (See Dianthus.)**SPIRAEA. (See Astilbe.)****TEUCRIUM.**

R. *chamaedrys.* Splendid perennial plant, bushy habit, greyish foliage, flowers are reddish purple to rose in color produced in whorls.

THALICTRUM. (Meadowrue.)

R. *adiantifolium.* Maidenhair meadowrue, graceful fern like foliage.

R. *alpinum.* Fluffy heads of creamy flowers, charming miniature variety for the rock garden. 35 cents.

dipterocarpum. Lovely mauve flowers in large panicles. 35 cents each.

flavum. Pale yellow heads of flowers on long stems in July.

glaucum. Fragrant yellow flowers, blue gray foliage.

R. *minus.* Very dainty little variety for rock gardens.

THERMOPSIS.

mollis. Erect spikes of soft yellow flowers.

caroliniana. Tall spikes of bright yellow flowers.

THYMUS. (Thyme.)

R. *argentea.* Silvery-leaved thyme.

R. *aurea.* Golden foliage, very attractive.

R. *citriodora.* Very spicily fragrant.

R. *herba-barona.* Has a very distinct spicy odor.

R. *serpyllum.* Creeping habit, flowers purple.

R. *serpyllum album.* Pure white flowers, pretty variety.

R. *serpyllum coccineum.* Red flower form.

R. *serpyllum lanuginosus.* Woolly leaved creeping thyme, very popular variety.

TRADESCANTIA. (Spiderwort.)

virginiana. Useful garden plant, deep blue flowers. We also have white and pink forms.

TRILLIUM.

erectum. Purple Trillium.

grandiflorum. Great Snowy Trillium, the finest variety.

nivale. Nodding white Trillium.

recurvatum. Prairie Trillium, dark purple.

stylosum. Rose Trillium, rosy pink flowers.

undulatum. Painted Trillium.

TRITOMA. (See Kniphofia.)**TROLLIUS. (Globeflower.)**

asiaticus. (Asiatic globeflower.) Rich orange.

fire globe. An excellent orange variety.

empire day. Large orange yellow with deep colored stamens.

ledebouri golden queen. Rich golden yellow flowers with deeper centre, very robust grower and a later bloomer than other vars.

europaeus. (European Globeflower.) Rich golden yellow.

japonicus. Very rich orange.

Prices of *Trollius* 50 cents each, \$5.00 per doz.

TUNICA. (Tunic flower.)

R. *saxifraga.* Small pale purple flowers, produced all summer.

R. *saxifraga*, double white. A purely double form of this valuable plant. 30 cents each, \$3.00 doz.

R. *saxifraga*, double pink. Another interesting and pretty double variety. 30 cents each, \$3.00 doz.

VALERIANA. (Garden heliotrope.)

officinalis. Useful, robust, fragrant, free flowering perennial.

VERONICA. (Speedwell.)

blue jay. Deep blue spikes similar to *subsessilis* but dwarfer and an earlier bloomer.

blue spire. A grand hybrid between *longifolia* *subsessilis* and *spicata*, retains the dark foliage and rich blue of *subsessilis*, fine bushy habit. 35 cents each, \$3.50 per doz.

R. *corymbosa stricta*. Fine alpine, dense plumes of azure blue flowers.

R. *filiforme*. A very dwarf rapidly spreading variety for ground cover, does well in shade.

R. *incana*. Pretty silvery foliage and violet blue flowers, fine plant for the rock garden or edging.

incana rosea. Pretty pink flowers.

longifolia subsessilis. One of the most valuable of all blue flowering perennials.

R. *repens*. Superb, compact growing rock plant, smothered with pale blue flowers in late spring.

R. *royal blue*. Dwarf bushy habit, dark blue flowers.

R. *rupestris*. Splendid rock plant, lovely blue flowers.

R. *saxatilis*. Pretty blue flowers, prostrate habit.

spicata. Violet blue flowers in long branched spikes.

R. **VINCA.**

minor. (Periwinkle.) Splendid for ground covers in either sun or shade.

R. *minor alba*. Pretty pure white variety. 35 cents.

R. *bowles* variety. More compact habit, much superior to type.

VIOLA. (Violet family.)

R. *arkwright ruby*. Very rich ruby colored flowers 35 cents.

R. *black knight*. Jet black flowers of moderate size, striking variety.

R. *bosniaca*. Distinct alpine species with rosy magenta flowers.

chantreyland.

The finest acquisition in Violas in recent years.

Flowers are of a rich apricot color, plants are much more stocky than those of Apricot, bloom more profusely and over a longer season. This will soon entirely displace the variety Apricot.

R. *cornuta alba*. Useful pure white trailing variety.

R. *cornuta atro-purpurea*. Rich deep violet.

R. *jersey gem*. A wonderfully profuse bloomer, rich purple color, the most dependable and persistent of the whole family.

R. *jersey gem alba*. I introduced the pure white variety of Jersey Gem 14 years ago, and it has proved just as satisfactory as the original purple type. The exact counterpart of Jersey Gem except in color.

R. *maggie mott*. We have a moderate stock of this immensely popular English variety with large lavender flowers. 30 cents each, \$3.00 doz.

R. *odorata*. Double Russian. Perfectly hardy, the deep purple flowers are intensely fragrant, the stems are rather short but the odor far exceeds that of any other violet. This variety has been very scarce but we have now secured a fair stock of it.

R. *odorata*. Single Russian. A sweet single scented purple variety.

R. *odorata rosina*. This is the charming and very fragrant pink form which flowers heavily in late fall and again in spring.

R. *odorata semperflorens*. Introduced in 1938 this variety has very emphatically made good. Outdoors it flowered from early April until Thanksgiving Day while plants in pots under glass bloomed the entire winter, very fragrant, succeeds in sunshine or shade and is a grand acquisition. 30 cents each, \$3.00 per doz.

We can also supply a number of the best of the larger flowered tufted Violas like *lutea splendens*, *admiration*, *primrose dame*, *imperial blue* and *blue perfection* as well as a superb strain of Pansies.

YUCCA.

filamentosa. Vigorous spikes attaining a height of 5-6 feet, large creamy white flowers. Succeeds well in quite poor soil, very striking evergreen foliage. 30-50 cents.

SWEET AND POT HERBS

We carry a good selection of the best and most interesting Sweet and Pot Herbs suitable for the Herb Garden, in addition to the various Thymes and other varieties to be found scattered through the general list of Hardy Perennials.

In addition we carry such fragrant plants as Lemon verbena (*Aloysia*) and several varieties of interesting scented leaved Geraniums. The following vars., from pots are 25 cents each, Southernwood, Tarragon, Apple mint, Lavender, Lemon verbena, scented Geraniums.

QUALITY BRAND PULVERIZED SHEEP MANURE

The purest and best brand obtainable. Splendid for the lawn, flower garden, vegetable garden, shrubbery and house plants. This is New England produce and vastly superior to the brands coming from the West which are usually much adulterated. Compare price and quality with other brands offered. 5 cents per pound in small lots, \$2.50 per 100 pounds, \$45.00 per ton.

PURE CANADIAN UNLEACHED HARDWOOD ASHES

In conjunction with fine bone this makes the ideal lawn fertilizer, brings in no weed seeds like barnyard manure. Excellent for all garden purposes. In jute bags containing 100 pounds \$2.50, per ton \$45.00.

PURE GROUND BONE

The very best quality of finely ground bone obtainable. Unexcelled for use on the lawn or in the garden. Makes an excellent and safe top dressing for geraniums, callas, and other flowering plants in the home. Per 100 pound bag, \$2.50, per ton, \$48.00. In small lots, 6 cents per pound.

AGRICO

A splendidly balanced fertilizer for trees, shrubs, perennials, annuals, lawns and vegetables, \$2.50 per 100 lbs.

PURE OAK LEAF MOLD

Screened and ready to use. Splendid for seeds of all kinds, for adding to potting soil and use in the garden. This is pure and not to be confounded with the badly adulterated material too commonly sold. \$1.00 per bushel, \$2.50 per 2½ bushel sack.

PEAT MOSS

Since its introduction we have always handled the finely ground Ideal Peat Moss from Holland. There have been and are many other brands but we have none equal to the one we carry. Owing to war conditions in Europe, supplies are reduced and freight charges much advanced but we are fortunately able to still offer this Dutch brand, but at slightly higher prices. A further advance may be necessary if imports are further restricted. We have tried other foreign and domestic brands but none are equal to the Ideal Dutch. \$4.00 per bale, 10 bale lots, \$37.50.

We can also furnish Dryconure and other fertilizers for the garden at very reasonable prices.

MASSACHUSETTS HORTICULTURAL SOCIETY

This is the largest and most influential body of its kind in the United States. Annual dues are only \$3.00 and entitles members to make use of the finest horticultural library in the World, copies of the Transactions of the Society, admissions to Lectures and Flower Shows, a copy of the magazine "Horticulture" 24 times yearly and other advantages.

The next great Spring Flower Show will be held in Mechanics Building, Boston on March 11-16, 1940. This exhibition annually covers over 100,000 square feet of space and the coming one will be distinct and contain features not previously seen in Boston. There will be 9 other exhibitions during the year with a Camellia show in late January and special exhibitions of Daffodils and Tulips during May. All exhibitions but the one in March will be held in Horticultural Hall, 300 Massachusetts Avenue, Boston, Mass.

AMERICAN ROSE SOCIETY

Everyone interested in Roses should belong to the American Rose Society, with headquarters at Harrisburg, Penn. The annual year book issued by the Society is alone worth more than the price of membership, which is \$3.50 per annum. For full information apply to Secretary, American Rose Society, Harrisburg, Penn.

REAL GARDENING

There are many magazines which give considerable space to gardening but very few are devoted entirely to it in America. REAL GARDENING contains only articles from competent authorities who are leaders in their line. Every article is readable, non-technical and to the point, planned and written by those who know, for those who want to know. All branches of horticulture are covered and the magazine is of Digest size, easy to handle, to carry and read. It is illustrated but carries no advertising, being in this way unique. REAL GARDENING is issued monthly and costs \$3.00 per annum or two years for \$5.00. For further information address REAL GARDENING (Robert S. Lemmon, Editor), New Canaan, Conn.
